

20th International Cyclodextrin Symposium

June 13-17 2022 Giardini Naxos (Me, Italy)

Let's meet again in presence, in Sicily!

The conference will be held in Giardini Naxos (Messina, ITALY) at UNAHOTELS Naxos Beach Sicilia and will be jointly organized by the National Council of Research (CNR) and the University of Messina, Italy.

All scientists belonging to the international academic community and to the industrial network interested in the cyclodextrin (CD) science are warmly invited.

Scientific topics:

- CD chemistry and modeling
- Supramolecules, polymers and self-assembly
- Nanomaterials
- Hybrid , soft and biomaterials
- Life science
- Therapy and diagnosis
- Nutraceuticals
- Analytical applications
- Green technologies
- Catalysis
- Cyclodextrins for fighting virus and pathogen agents (Mini-Symposium on June 17)

Opening plenary speaker: **Sir James Fraser Stoddart**, Nobel Laureate 2016 for Chemistry

Looking forward to see you at Giardini Naxos (Messina) on June 2022.

Best regards,
Antonino Mazzaglia (Chair of 20th ICS)
