

G. Centi - short CV (Jan. 2020)

Gabriele Centi is full professor of Industrial Chemistry at the University of Messina, Italy, and President of the European Research Institute of Catalysis (ERIC). Research interests are in the areas of applied heterogeneous catalysis, sustainable energy and chemical processes, biomass conversion and environment protection.

He was coordinator of the EU Network of Excellence IDECAT, and is actually President of IACS (International Association of Catalysis Societies) and vice-President of the InterUniversity Consortium on the Science and Technology of Materials

(INSTM). He was coordinator or PI in over twenty EU projects, besides many other national and industrial projects. He recently started and coordinated an ERC Synergy grant on plasma-catalysis. He is also part of the board of the CSA ENERGY-X and SUN-ERGY. He received several awards, and is involved in various editorial activities, between which chairing the editorial board of *ChemSusChem* and be co-editor in chief of *Journal of Energy Chemistry*. He was chairperson of many international conferences, between which the last one Europacat 2017 in Florence and the 16th International Zeolite Conference joint with the 7th International Mesoporous Materials Symposium (Sorrento, Italy, 2010).

He is author of over 500 publications, editor of 16 special issues of international journals on thematic of catalysis and advanced materials, author/editor of 11 books of catalysis (plus monographs and contributions to encyclopedia). The current bibliographic data are an h-index of 81 (Google Scholar, 48 since 2015) with about 25500 citations (over 10000 since 2015) and i10-index of 335 (196 since 2015).
