

CURRICULUM VITAE

Katiuska SATUE-AMBROJO

ksatue@uchceu.es

- ✓ Professor at CEU-Cardenal Herrera University of Valencia, Spain since 2000
- ✓ Specialist Internal Medicine and Specialist Medical Endocrinology (2004)

- ***Scientific profile with indication of the main topics of scientific interest***

Dr. Satué has a degree in Veterinary Medicine from the University of Córdoba (1993), a Master's Degree in Equine Technology (1996), a degree in Veterinary Medicine (1997) and a Doctor in Veterinary Medicine from the University of CEU-Cardenal Herrera (2004). Up to now she has taught 18 years of teaching since joining the Department of Medicine and Animal Surgery of the CEU-Cardenal Herrera University as Professor in September 2000. After obtaining accreditation as Private University Doctor Professor, Doctor Assistant and Contracted Doctor from the AVAP (Agència Valenciana d'Avaluació i Prospectiva), she changed the category to Assistant Professor in 2010. In July 2014 promoted the Associate Professor in the area of Equine Clinic. He has taught theory and practice in subjects of Bachelor (Clinical Analysis and Reproduction and Obstetrics, among others) and later, in the Degree in Veterinary (General Pathology, integrated in the module of Applied Bases of the Veterinary of 2º, Equine Clinic I of 3rd, and Equine II Clinic for the 4th year). She has developed her research activity in the field of Endocrinology, Hematology, Biochemistry and Immunology in the mare, having directed 5 Doctoral Theses and 5 Advanced Studies Diplomas, participated in 10 research projects as a collaborating researcher. She has written 2 books and 12 book chapters in international editorials related to the area, 50 scientific publications in international journals indexed in JRC, non-indexed international journals and articles in national journals of

professional nature or scientific competence. Dr. Satué has attended 58 congresses, participating with 111 communications in international congresses and 19 in national congresses related to the qualified area and has a recognized sexennio. Dr. Satué is a scientific reviewer of several international journals indexed as, American Journal of Obstetrics and Gynecology, Comparative Clinical Pathology, Veterinary Clinical Pathology, Journal of Equine Veterinary Science, Reproduction in Domestic Animals, Research Veterinary Science, Brazilian Journal of Medical and Biological Research, Livestock Production Science and Theriogenology, among others. She has been a Doctorate Coordinator in the area of Medicine and Animal Surgery of the Doctoral Program 778 of the CEU-Cardenal Herrera University. She is also Head of the Clinical Analysis Laboratory of the Veterinary Clinic Hospital in this same University, in which actively assume her care work since September 2014. Its medium and long-term objectives will be aimed at further developing those aspects of laboratory unknown in the Spanish Purebred broodmares, because it is an autochthonous breed of great genetic value and that has contributed to the formation of other equine breeds in the world.

Doctoral theses:

Title: Estudio longitudinal de las concentraciones de catecolaminas, factor de crecimiento placentario e IGF-1 y su interacción con hormonas de origen hipofisario y placentario durante la gestación en yeguas pura raza española.

PhD Program: Ciencias de la Salud

Doctoral student: María Marcilla Corzano

Professor: Katiuska Satué Ambrojo

Date: 13 Junio 2017

Calification: Sobresaliente "cum laude"

Department of Medicine and Animal Surgery. Veterinary school. CEU University- Cardenal Herrera.

Title: Caracterización hematológica , bioquímica y endocrinológica de la yegua Pura Raza Española durante el ciclo estral, gestación y lactación

PhD Program: Ciencias de la Salud

Doctoral student: Antonio Calvo Capilla

Professor: Katiuska Satué Ambrojo / Ana Muñoz Juzado

Date: 9 Julio 2013

Calification: Sobresaliente "cum laude"

Department of Medicine and Animal Surgery. Veterinary school. CEU University- Cardenal Herrera.

Title: Sistema renina angiotensina aldosterona durante el ciclo estral en la yegua pura raza española: interrelaciones con otras hormonas y con el estado hidroelectrolítico

PhD Program: Ciencias de la Salud

Doctoral student: Paloma Montesinos Herrero

Professor: Katiuska Satué Ambrojo

Date: 7 Junio 2012

Calification: Sobresaliente "cum laude"

Department of Medicine and Animal Surgery. Veterinary school. CEU University- Cardenal Herrera.

Title: Caracterización hematológica e inmunofenotípica del caballo de Pura Raza Española

PhD Program: Ciencias de la Salud

Doctoral student: Ángel Hernández Guerra

Professor: Katiuska Satué Ambrojo / Carmen Lorente Méndez

Date: 4 Diciembre 2008

Calification: Sobresaliente "cum laude"

Department of Medicine and Animal Surgery. Veterinary school. CEU University- Cardenal Herrera.

Title: Actuación del eje Renina Angiotensina Aldosterona y hormonas de la reproducción en yeguas Pura Raza Española durante la gestación

PhD Program: Ciencias de la Salud

Doctoral student: Rosana Domingo Ortiz

Professor: Katiuska Satué Ambrojo

Date: 24 Mayo 2008

Calification: Sobresaliente "cum laude"

Department of Medicine and Animal Surgery. Veterinary school. CEU University- Cardenal Herrera.

Projects:

-Etiopatogenia del síndrome del folículo anovulatorio luteinizado (LUF) en la yegua: posibles tratamientos para restablecer la ovulación. IP: Juan Cuervo Arango-Lecina. Banco Santander, 2013.

-Modelos experimentales para la inducción y posibles tratamientos del síndrome del folículo anovulatorio luteinizado en la yegua (GV/2014/129)IP: Juan Cuervo Arango-Lecina. Conselleria D'educació, Cultura y Sport (generalitat Valenciana), 2014.
