

# Curriculum Vitae

## Personal informations

Name **Marta Ragonese**  
Role **MD, PhD, RTD-A**  
Nationality **Italian**  
Birth date **1980 august, 09**

1999	High school degree (97/100)
01-31 Oct 2002	Attendance period at the Medizinische Hochschule of Hannover, Germany
25 Oct 2005	Degree in Medicine and Surgery at the University of Messina (110/110 cum laude)
27 Feb 2006	Professional qualification (270/270) – Omgeo Messina n. 9018
28 Oct 2010	Specialization in "Endocrinology and metabolic diseases", University of Messina
29 Apr 2014	PhD in "Experimental Endocrinological and Metabolic Sciences", University of Messina
16 Dec 2014	Research grant c/o Department of Neurosciences of the University of Messina
27 Nov 2017	Hospital scholarship c/o Division of Endocrinology of the Policlinic of Messina (2 yrs)
22 Sep 2020	Research grant c/o Department of Human Pathology DETEV of the University of Messina
06 Sep 2021	Appointed Expert of the Matter for the discipline "Endocrinology and Metabolic Diseases"
29 Dec 2021	Researcher c/o Department of Human Pathology DETEV of the University of Messina

## Professional experience (1)

2006-2010  
Role  
Activity  
Place  
Division

School of specialization in "Endocrinology and Metabolic Diseases"  
Medical specialist in training  
Patient management in the context of hospitalization and visits  
A.O.U. Policlinic "G. Martino", Via Consolare Valeria n.1 – 98125 Messina  
Endocrinology – H, IV floor

## Professional experience (2)

2011-2013  
Activity  
Place  
Division

PhD in "Experimental Endocrinological and Metabolic Sciences"  
Research work and production of scientific articles on pituitary and adrenal pathologies  
A.O.U. Policlinic "G. Martino", Via Consolare Valeria n.1 – 98125 Messina  
Endocrinology – H, IV floor

## Professional experience (3)

02.01.2015  
Activity  
Place

Research Grant (1 yr) for the project "The" omics "sciences as a translational research tool in neuroncology".  
Research work and production of scientific articles on pituitary pathologies  
A.O.U. Policlinic "G. Martino", Via Consolare Valeria n.1 – 98125 Messina

## Professional experience (4)

27.09.2017-26.09.2019  
Scholarship (1 yr) renewed for another year, as part of the research project RF-2013-02356201 entitled "Role of the interaction between genes and the environment in the etiology and promotion of pituitary tumors".

Activity	Research work and production of scientific articles on pituitary pathologies
Place	A.O.U. Policlinic "G. Martino", Via Consolare Valeria n.1 – 98125 Messina
Division	Endocrinology – H, IV floor

### Professional experience (5)

22.09.2020-29.12.2021  
Research Grant lasting 1 year, renewed for another year (and terminated with renunciation on 29.12.21), as part of a project entitled "Multimedial approach for improving management and compliance of acromegaly patients".

Activity	Research work and production of scientific articles on pituitary pathologies
Place	A.O.U. Policlinic "G. Martino", Via Consolare Valeria n.1 – 98125 Messina
Division	Endocrinology – H, IV floor

### Professional experience (6)

31.12.2021 – in itinere  
Researcher (art. 24/3 lett. a - DL 30.12.10, n. 240) PON "Research and Innovation" 2014-2020 (SC 06/D2 - SSD MED/13 Endocrinology) at the Department of Human Pathology DETEV for the three-year research project "Effects of environmental pollutants with endocrine activities disruptors, and cell detoxification systems, on adrenal physiopathology, and effects on the immunological response" (referent Prof. Salvatore Cannavò).

Activity	Research work and production of scientific articles on pituitary pathologies
Place	A.O.U. Policlinic "G. Martino", Via Consolare Valeria n.1 – 98125 Messina
Division	Endocrinology – H, IV floor

### Professional experience (7)

2010-2020  
Freelance doctor (p. IVA)  
Activity Clinical activity of freelance related to endocrinological and metabolic problems

### REPORTS BY INVITATION

- **Conference** "Therapeutic strategies in endocrine and metabolic diseases" (Endomet 2010) Messina on 30 / 09-02 / 10 2010. Communication entitled "Therapy goals and predictive factors of mortality" in the context of the session "Systemic complications of acromegaly"
- **Endomet** Conference 2011, Messina on 20-22 October 2011. Communication entitled "Multiple Endocrine Neoplasia Type 1 (MEN1)" in the context of the session "Family endocrinopathies".
- **Endomet** Conference 2012, Messina 27-29 September 2012. Communication entitled "Acromegaly" in the context of the session "Endocrinology in the elderly".
- **Symposium for Healthcare Professionals** (satellite at the Endomet 2013 conference), Messina on 11/26/2013. Communication entitled "Diagnostic procedures in Cushing's disease"
- **Training course** "Diagnosis and therapy in patients with endocrine cancer: we simplify the difficulties", Messina on 12 October 2013.
- **Advisory board** organized by Italfarmaco s.p.a. (professional assignment of occasional service) on 16/06/2014 in Messina, entitled "Endocrinology and spending review: which model of assistance is sustainable for the acromegalic patient"
- **Training course** 11/10/2014 Taormina, entitled "Acromegaly and Cushing's Syndrome: recognizing them first is convenient for everyone".
- **Training course** entitled "Acromegaly: Recognizing it first is convenient for everyone" held in Messina on 27 May 2017.
- **Corso** "Messina GHD Network: il network «Spoke to Hub» per la diagnosi e gestione del deficit di ormone somatotropo dell'adulto" Messina il 18 Gennaio 2019, relazione dal titolo "La qualità di vita del paziente adulto con GHD".
- **Congress** "Endocrinology of the Strait - II edition ", Reggio Calabria and Scilla on 4 and 5 October 2019 report entitled" Therapies of resistant acromegaly".
- **42° Congress** of the Italian Society of Aesthetic Medicine, held in Rome 16-18 July 2021, lecture entitled "Growth hormone and IGF-1: clinical aspects".

### MODERATIONS

"Incontri 4I" Congress held in Syracuse (March 2018)

**AWARDS/ACKNOWLEDGMENTS**

- 1) Winner of the "best poster" award as co-author at the III Italian Meeting on Hypothalamic-Hypophyseal Diseases, held in Catania in February 2008. Scientific contribution entitled "Evaluation of thyroid morphology and function in acromegalic patients". Romanello G., **Ragonese M.**, Squadrito S., Carducci Artenisio A., Vermiglio F., Scisca C., Trimarchi F., Cannavò S.
- 2) Winner of the award promoted by the pharmaceutical company Pfizer as part of the Pfizer IGLC (Independent Grants for Learning & Change) program for Endocrinology, with a project entitled "**Multimedial approach for improving management and compliance of acromegaly patients**" (19.10.2018).

**OTHER INFORMATION**

September 2021 Expert of the Subject for the discipline "Endocrinology and Dysmetabolic Diseases" – Course of Nutraceutical Sciences and Functional Foods (SSD MED / 13), at the Department of Chemical, Biological, Pharmaceutical and Environmental Sciences, for the three-year academic year from 01.10 .21 to 30.09.24

**SCIENTIFIC SOCIETIES**

Enrolled in the Italian Society of Endocrinology (SIE) since 2007. She has participated in some Endotrials in the field of pituitary physiopathology, promoted by the SIE. Since February 2020 she has been a member, in the role of secretary, of the SIE "Aesthetics and Wellness" Club. Since October 2021 she has been a member of the Guidelines Commission of the SIE.

**EDITORIAL ACTIVITY**

She participated in the Faculty of 1000 (F1000) program as an "Associate Faculty Member", through the critical evaluation of the following scientific articles:

- Increased rate of intracranial saccular aneurysms in acromegaly: an MR angiography study and review of the literature. Manara et al. JCEM 2011
- Recurrence of hyperprolactinaemia following discontinuation of dopamine agonist therapy in patients with prolactinoma occurs commonly especially in macroprolactinoma. Barber et al. Clin Endocrinol 2011

## BOOK CHAPTERS

1. *GH antagonista: il Pegvisomant*, in S. Grottoli e G. Mazziotti (a cura di), *Trattamento dell'acromegalia: un update*, Ed. Minerva Medica, Torino 2018, 36-44. **Ragonese M.**, Cannavò S., Chiloiro S., Giampietro A., Bianchi A., De Marinis L. **ISBN 978-8877119056. IF=2,475.**

## Languages

Italian and English

## Esperience

Fifteen years of practice with patients with pituitary and adrenal diseases. Long experience as a "clinical investigator" in various clinical trials, especially concerning acromegaly, in accordance with the indications of GCP (Good Clinical Practice). Since 2006 participation in various training courses and scientific conferences, also as a speaker. Since 2010, publication of scientific articles on pituitary and adrenal diseases. Participation in the Faculty of 1000 (F1000) program as an "Associate Faculty Member".

## IT skills

Excellent knowledge of Microsoft Windows and Office (Word, Excel, Power Point)

Department of Human Pathology DETEV, University of Messina - A.O.U. Policlinico Gaetano Martino, Via Consolare Valeria n.1, 98125 Messina, Division of Endocrinology H – IV floor +39 090 221 3560

I authorize the processing of my personal data pursuant to Legislative Decree 30 June 2003, n. 196
