

DEPARTMENT OF ENGINEERING

Master's Degree in Engineering and Computer Science (ECS) - Academic Year 2021/2022

For admission purposes to the Master Degree in **Engineering and Computer Science (ECS)**, B2 English level knowledge is required (European standard level B2).

Knowledge can be demonstrated if **you hold certifications of the same level (B2) or even higher level (C1, C2) issued by a certified authority** or recognized such as the guarantees provided regarding the standard of exams, by the Ministry of University and Research.

The most common certifications issued in Italy are:

- ESOL (provided by the University of Cambridge/British Council) (certifications without expiry),
- GESE Esol and ISE Esol (provided by Trinity College London) (certifications without expiry),
- TOEFL (provided by Educational Testing Service) (certification valid for two years),
- IELTS (provided by British Council) (certification valid for two years)

The previous certifications must be sent to the Science and Technology Operating Unit by e-mail addressed to protocollo@unime.it.

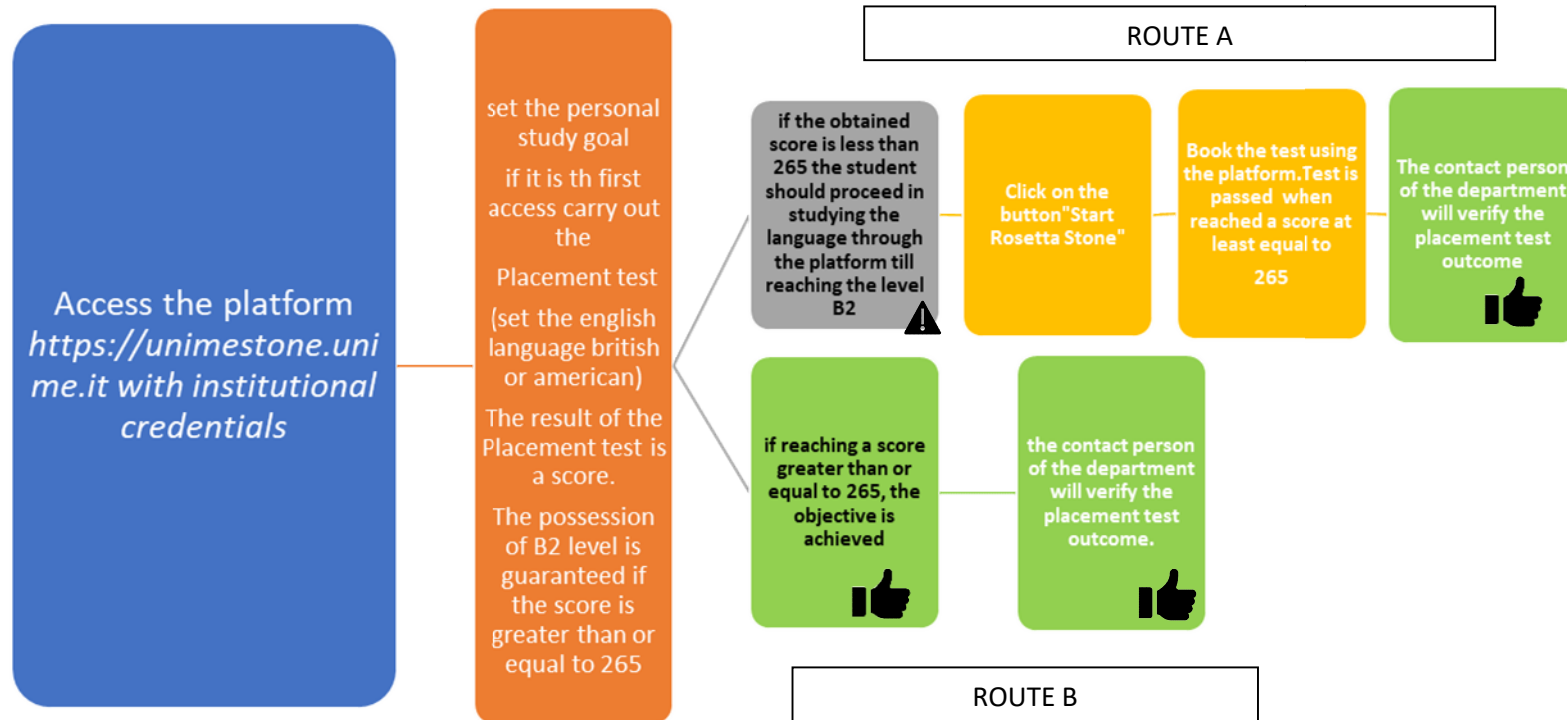

They will be forwarded by the U.Op. Science and Technology to the Coordinator of the Degree Course for an evaluation by the Degree Course Council.

The student can also produce the "Result of a Rosetta Stone test, carried out at UniME, with a score greater than or equal to 265."

UNIMESTONE PLATFORM

The achievement of the required level of the English language **can be acquired by students enrolled in the academic year 2021/2022** by accessing the courses provided on the UniMESTONE platform, they are available for the students of the University of Messina. Students enrolled in previous academic years should contact technical support at unimestone.ingegneria@unime.it.

What should the student who chooses to use the Rosetta Stone test result do?

For further information or help, the institutional support e-mail address to contact is: unimestone.ingegneria@unime.it
