STUDENT USE BENEFITS

Student Use Benefits is a program that entitles Students to free copies of the software after paid versions are purchased for 100% of an Institution's Education Qualified User count.

If a Qualifying product is purchased via a suite/bundle for 100% of Education Qualified Users: student ratio is 1:40, if the Qualifying product is purchased Standalone the Education Qualified User: student ratio is 1:15

If customer purchases a "mix" of plans within an EPP (e.g. M365 A3 and M365 A5), the Student Use Benefit is based on the lower plan (e.g. M365 A3)
