

iNSAM δ ay

MESSINA JUNE, 7 2017

University of Messina
Aula Magna

PROGRAM

10:00 Opening

10:30-11:30

John Ball (University of Oxford)

The mathematics of liquid crystals

12:00-13:00

Marie Françoise Roy (University of Rennes 1)

Effectivity and complexity results in Hilbert 17th problem

15:00-16:00

Carla Manni (University of Rome "Tor Vergata")

From geometric modeling to numerical simulation

16:30-17:30

Camillo De Lellis (University of Zurich)

*L^p -estimates for the Brouwer degree and the
Borisov-Gromov problem*

Local organizers: G. D'Aguì, V. De Filippis, N. Manganaro,
L. Puccio

Scientific committee: G. Coletti, P. Marcellini, E. Mezzetti,
G. Moscarello, T. Ruggeri

Department of Engineering
&
Department of Mathematics and
Computer Science, Physics and Earth Sciences
