La lista completa dei titoli inclusi per il 2020 nel database è disponibile nella tabella 1 -Elenco Titoli Database Model 2020- di seguito.

I seguenti titoli inclusi nel Database 2020 non sono disponibili su piattaforma Wiley Online Library: British Journal of Radiology (BJR) e Dentomaxillofacial Radiology (DMFR). Tali titoli sono accessibili all'URL <https://www.birpublications.org/action/showLogin>. I sottoscrittori potranno ottenere le statistiche di utilizzo per BJR e DMFR all' URL <https://www.birpublications.org/page/usagedata>. Wiley potrà cambiare tale URL a sua discrezione.

Accesso all'archivio

L'abbonamento darà diritto ai Sottoscrittori di accedere online ai file elettronici di tutti i contenuti pubblicati nei periodici che compongono il database durante il periodo di abbonamento e ai contenuti retrospettivi, in genere fino al 1997, a seconda della data di inizio della pubblicazione online di Wiley. L'accesso retrospettivo per BJR e DMFR è fornito a partire dal 2009. A scanso di equivoci, questo non include alcun materiale incluso nei Backfiles (generalmente anteriori al 1997) per gli stessi periodici.

Appendix No. 2 – Subscribed Products – THE DATABASE

The Database will comprise all subscription-based journal titles published on Wiley Online Library (or any platform designated by Wiley) including titles previously excluded from collections, transfer titles and newly launched journals as well as the Hybrid Journals (defined in Appendix No. 7.)

The complete list of titles included for 2020 in the Database is included in Schedule 1 – Database Title List 2020 below.

The following titles included in the 2020 Database are not available via Wiley Online Library: British Journal of Radiology (BJR) and Dentomaxillofacial Radiology (DMFR). However, they may be accessed via the URL <https://www.birpublications.org/action/showLogin>. The Subscriber will be able to obtain Usage statistics for BJR and DMFR via the URL <https://www.birpublications.org/page/usagedata>. Wiley may change the URLs at its sole discretion.

Archival Access

The subscription will entitle the Subscriber to online access to the electronic files of all content published in the journals that comprise the Database during the term of the subscription and retrospective content, generally back to 1997, depending on the start date of online publishing by Wiley. Retrospective content for BJR and DMFR is provided back to 2009. For the avoidance of doubt, this does not include any material included in Backfiles (i.e. generally older than 1997) for the same journals.

Accesso Perpetuo

In caso di risoluzione del contratto, Wiley fornirà al Sottoscrittore l'accesso perpetuo ai file elettronici di tutti i contenuti pubblicati nei periodici che compongono il database per gli anni 2020, 2021 e 2022, nel formato originariamente pubblicato ed escludendo ogni aggiunta alla versione originariamente pubblicata o contenuti online aggiuntivi non forniti nella versione cartacea di tali contenuti, laddove Wiley ne abbia il diritto. Wiley fornirà l'accesso perpetuo per il 2023 a conferma ed accettazione del rinnovo delle riviste per l'anno 2024. A scanso di equivoci, il Sottoscrittore manterrà i diritti di accesso perpetuo ai file elettronici attuali e ai contenuti retrospettivi, in genere fino al 1997, per tutti i periodici per cui il Sottoscrittore possiede i diritti al momento. L'accesso retrospettivo per BJR e DMFR è fornito a partire dal 2009. Non viene fornito alcun diritto di accesso perpetuo nell'ambito del presente allegato No. 2 per qualsiasi materiale incluso nei Backfiles (generalmente anteriori al 1997) per gli stessi periodici.

Wiley potrà continuare a fornire l'accesso perpetuo online per il Database sul server di Wiley o su quello di terze parti, nel formato originariamente pubblicato. Come ultima risorsa, Wiley fornirà al Sottoscrittore una copia d'archivio nel supporto elettronico selezionato da Wiley a una tariffa ragionevole basata sui costi, concordata di comune accordo tra le parti.

Fornendo tale accesso, Wiley garantisce al Sottoscrittore una licenza non esclusiva, esente da diritti d'autore, per l'utilizzo di tale materiale in conformità con i Termini e Condizioni d'Uso di cui al presente contratto, incluse, a titolo esemplificativo ma non esaustivo, le limitazioni d'uso specificate nell'articolo 4 del presente Contratto, che sopravvivranno alla risoluzione del Contratto.

Wiley will provide with perpetual access for 2023 upon confirmation and acceptance of the journal renewal for year 2024. By providing such perpetual access Wiley grants to the Subscriber a non-exclusive, royalty-free, license to use such material in accordance with the Terms and Conditions of Use of this Contract, including but not limited to restrictions on use specified in Article 4 of this Contract, which shall survive any termination of the Contract.

For the avoidance of doubt, perpetual access rights under previous license terms are unaffected by this Contract.

Allegato No. 6 – Corrispettivi

Il modello di determinazione del prezzo del Contratto alloca una percentuale crescente della spesa totale in un fondo open access ("Fondo OA") durante la Durata, consentendo la pubblicazione in Open Access di quantità crescenti di articoli degli Autori Ammissibili nelle pubblicazioni Wiley Hybrid. Man mano che la spesa per l'accesso aperto aumenta, la spesa per l'abbonamento diminuisce mentre si mantengono al Sottoscrittore e ai suoi Utenti Autorizzati tutti i privilegi di lettura correnti.

Appendix No. 6 – Fees

The pricing model of the Contract allocates an increasing percentage of total expenditure into an open access fund ("OA Fund") during the Term, enabling increasing amounts of Eligible Authors articles to be published open access in Wiley Hybrid publications. As the open access spend increases, subscription spend decreases whilst still giving Subscriber and its Authorised Users all current read privileges.

The APC levied by Wiley for open access publishing in Hybrid publications during the Term will be at Wiley article publication charge

Termine sarà al prezzo di listino Wiley della tariffa di pubblicazione dell'articolo per la rivista, che Wiley ha scontato a beneficio di CRUI del 17,5%.

Il pagamento annuale effettuato per il Fondo OA finanzia il saldo WOAА amministrato su una serie di conti che saranno gestiti da ciascun Sottoscrittore. Il Fondo OA è unico tra tutte le Istituzioni e utilizzato su base first in, first out. I sottoscrittori possono scegliere di versare importi aggiuntivi sul proprio Fondo OA individuale in qualsiasi momento. Gli APC dovuti per ciascun Articolo Accettato vengono detratti dal Fondo OA, fino a quando il valore del Fondo OA non viene esaurito. Se il Sottoscrittore non usufruisce di tutto il fondo OA allocato in ciascun anno del contratto, ad eccezione dell'anno 2020, la parte non utilizzata non sarà disponibile per l'utilizzo negli anni successivi.

Qualsiasi parte del fondo OA allocato per il 2020 non utilizzato entro il 31 Dicembre 2020 potrà essere riallocato nei rimanenti anni dell'accordo, nelle seguenti percentuali:

2021: 50%

2022: 30%

2023: 20%

Nel caso in cui il saldo sia nullo prima della fine di un determinato anno, agli Autori Ammissibili di articoli successivamente accettati per la pubblicazione nello stesso anno che scelgono di pubblicare con una licenza OA verrà addebitato un APC con applicato lo sconto del 20%, a condizione che i fondi siano instradati tramite il flusso di lavoro WOAА concordato.

list price for the journal, which Wiley has discounted for the benefit of CRUI by 17.5%.

The annual payment made for the OA Fund will fund the WOAА balance administered across a number of accounts to be managed by each Subscriber. The OA Fund is pooled across each Institution and used on a first in, first out basis. Subscriber may choose to provide additional fees to their individual OA Fund at any time. APCs due for each Accepted Article are deducted from the OA Fund, until such time as the OA Fund value has been reached. If Subscriber is unable to spend the maximum OA allocation in the Fund for any year of the Contract except year 2020, the unused allocation will not be available for use in subsequent years.

Any of the OA fund allocated from 2020 fees that has been unspent by December 31st 2020 may be allocated across the rest of the agreement in the following percentages:

2021: 50%

2022: 30%

2023: 20%

In the event that the balance is nil before the end of a given year, Eligible Authors of subsequent articles accepted for publication in the same year who choose to publish under an OA license will be charged an APC with the 20% discount applied provided funds are routed via the agreed WOAА workflow.

Appendix No. 7 – OA RIGHT

1. General

1.1. Definitions:

Eligible Articles: primary research and review articles submitted by Eligible Authors that have been accepted for publication in a Wiley Hybrid journal.

Article Publication Charge ("APC"): the amount for each publication levied by Wiley on the acceptance of an Accepted Article for publication on an open access basis in Hybrid Journals, the amount of which is dependent on the publication in which such material is published and subject to discounts as set out in Appendix No. 6 (Fees).

Eligible Author: an author (i) who is affiliated with an Institution, i.e., who is a member of the teaching or research staff employed by or otherwise formally recognised as accredited to the Institution, (whereby in case of articles published by multiple authors only the affiliated author will be regarded as the Eligible Author); (ii) who is responsible for manuscript submission, correction, proof reading, whole correspondence during the paper submission, handling the revisions and re-submission of revised manuscripts up to the acceptance of the manuscripts by Wiley (these duties may be delegated to one or more coauthors), and who is named as the corresponding author on the final published article; (iii) who has signed one of the then current open access publishing agreements used by the Publisher to publish an article under Open Access in one of the Hybrid Journals (the current list of these Journals is attached to this Appendix as Schedule 1 "Hybrid Journals"; this Schedule 1 will be updated by Publisher each year during the term of the contract), and (iv) for whom an Institution has confirmed the status as Affiliated Author.

Hybrid Journals: Subscription journals published by Wiley that includes papers published by Eligible Authors on an open access basis as per this Contract.

WOAA: the Wiley open access account held by the Subscriber for the purposes of administering open access workflows in Wiley's Hybrid Journals.

1.2 Wiley accetta la pubblicazione ad accesso aperto su Riviste ibride (Tabella 1) di Articoli Ammissibili come richiesto dagli Autori Ammissibili attraverso il flusso di lavoro concordato descritto di seguito.

1.3 Gli Autori Ammissibili che pubblicano ai sensi del presente Contratto mantengono il copyright soggetto alle disposizioni dei loro accordi di autore e concedono a Wiley il diritto di pubblicare questi articoli con una licenza Creative Commons. Wiley incoraggerà gli Autori Ammissibili a pubblicare con la licenza CC-BY e il flusso di lavoro di pubblicazione, ove possibile, li indirizzerà sempre a CC-BY come prima opzione. Sebbene la licenza CC-By venga offerta per prima, gli Autori Ammissibili potranno selezionare la licenza Creative Commons Attribution Non-Commercial 4.0 International (CC-By-NC 4.0) o la licenza Creative Commons Attribution Non-Commercial Non-Derivative 4.0 International (CC-By-NC-ND 4.0) per la pubblicazione dei propri articoli se lo desiderano.

1.4 Nell'ambito del flusso di lavoro di una rivista ibrida standard, se l'Autore Ammissibile ha identificato la propria affiliazione con un Sottoscrittore selezionandolo da un elenco standardizzato di istituzioni nei sistemi di sottomissione della redazione elettronica e dei Servizi per gli Autori, all'Autore Ammissibile verrà presentata una scelta di opzioni di pubblicazione. Wiley includerà informazioni e indicazioni sufficienti per gli Autori Ammissibili sul fatto che gli Articoli Ammissibili devono essere pubblicati ad accesso aperto come parte del presente contratto (a condizione che la corretta affiliazione dell'Autore Ammissibile venga riconosciuta dai metadati del sistema Wiley) e che non sia necessario pagare alcuna quota per la pubblicazione ad accesso aperto dei propri articoli.

Per tutte le riviste che attualmente seguono un flusso di lavoro di pubblicazione ibrida non standard (Tabella 2 aggiornata dall'Editore ogni anno durante la durata del contratto), all'Autore Ammissibile di qualsiasi Articolo Ammissibile che si sia identificato come affiliato con un Sottoscrittore, durante l'invio della redazione elettronica verranno presentati una scelta di opzioni di pubblicazione e l'Autore Ammissibile verrà informato che gli articoli sono destinati ad essere pubblicati ad accesso aperto come parte del presente Contratto.

1.2 Wiley agrees to the open access publication in Hybrid Journals (Schedule 1) of Eligible Articles as requested by Eligible Authors through the agreed workflow outlined below.

1.3 Eligible Authors publishing under this Contract retain their copyright subject to the provisions of their author agreements and grant Wiley the right to publish these articles under a Creative Commons license. Wiley shall encourage Eligible Authors to publish with the CC-BY license and the publication workflow shall, whenever possible, always direct them to CC-BY as the first option. Although the CC-By license is offered first, Eligible Authors will be able to select the Creative Commons license Attribution Non-Commercial 4.0 International (CC-By-NC 4.0) or the Creative Commons license Attribution Non-Commercial Non-Derivative 4.0 International (CC-By-NC-ND 4.0) for the publishing of their articles if they wish.

1.4 Under the standard hybrid publication workflow, if the Eligible Author has identified his/her affiliation with a Subscriber by selecting from a standardized list of institutions in the electronic editorial office submission and Author Services systems, the Eligible Author will be presented with a choice of publishing options. Wiley will include sufficient information and guidance for Eligible Authors that Eligible Articles are meant to be published open access as part of this Contract (so long as the correct affiliation of the Eligible Author is captured in Wiley system metadata) and that they do not need to pay any fee for open access publication of their articles.

For any current journals that follow a non-standard hybrid publication workflow (Schedule 2 updated by Publisher each year during the term of the contract), the Eligible Author of any eligible articles who has identified his/her affiliation with a Subscriber in the electronic editorial office submission system will also be presented with a choice of publishing options and the Eligible Author will be informed that the articles are meant to be published open access as part of this Contract.

1.5 Wiley, in consultazione con il Sottoscrittore, si impegna ad allineare il flusso di lavoro qui descritto con le *ESAC Workflow Recommendations for Transformative Agreements* (<https://esac-initiative.org/about/oa-workflows/>).

Questo Allegato inizierà per gli articoli accettati dal ("Data di implementazione ad accesso aperto") a condizione che sia stato istituito un WOAA ai sensi della sezione 5.9. della presente appendice n. 7 e termina per gli articoli accettati il 31 dicembre 2023.

2. Identificazione

2.1 Gli Autori Ammissibili saranno identificati attraverso almeno uno dei seguenti parametri: il nome della loro organizzazione; il proprio dominio di posta elettronica. Wiley e il Sottoscrittore esamineranno il processo di verifica come stabilito nel presente documento in tempi ragionevoli durante la durata del Contratto e lavoreranno in collaborazione per affrontare eventuali problemi di flusso di lavoro che sono stati identificati in relazione al processo di pubblicazione e all'approvazione o al rifiuto delle richieste. Ogni cambiamento sostanziale nel flusso di lavoro deve essere approvato in anticipo dalla CRUI per diventare effettivo e applicabile.

Le modifiche per diventare effettive devono essere concordate tra le parti.

2.2 Se Wiley non riesce a identificare gli autori di articoli su riviste ibride come Autori Ammissibili nonostante l'Autore Ammissibile abbia fornito correttamente le informazioni sull'affiliazione al più tardi nella fase di accettazione, Wiley sarà responsabile della rettifica dello stato dell'articolo per l'accesso aperto anche dopo la pubblicazione. Laddove siano disponibili fondi OA, al momento dell'emissione della correzione e della rettifica dello stato dell'articolo accettato, l'APC per l'articolo sarà dedotto dal Fondo OA, in conformità con i termini del presente contratto.

2.3 Se Wiley non riesce a identificare gli Autori Ammissibili come idonei nonostante l'Autore Ammissibile abbia fornito correttamente le informazioni sull'affiliazione al più tardi nella fase di accettazione e quindi addebiti loro la pubblicazione del loro articolo, Wiley rimborserà l'autore entro 30 giorni dal ricevimento di una notifica scritta che stabilisce l'errata identificazione e, laddove sono disponibili fondi OA, l'APC per l'articolo sarà detratto dal Fondo OA in conformità con i termini del presente Contratto.

1.5 Wiley, in consultation with Subscriber, is committed to aligning the workflow described herein with the *ESAC Workflow Recommendations for Transformative Agreements* (<https://esac-initiative.org/about/oa-workflows/>).

This Appendix will commence for articles accepted from the ("Open Access Implementation Date") provided a WOAA has been set up pursuant section 5.9. of this Appendix No. 7 and end for articles accepted on 31st December 2023.

2. Identification

2.1 Eligible Authors will be identified through at least one of the following parameters: their organization name; their e-mail domain persistent identifier, such as Ringgold or other recognized institutional identifier. Wiley and the Subscriber will review the verification process as set forth herein on a reasonable time basis during the duration of the Contract and will work collaboratively to address any workflow issues that have been identified relating to the publication process and approvals or denials of requests. Substantial changes in the workflow must be approved in advance by CRUI to become effective and applicable.

The changes to become effective must have a mutual agreement of the parties.

2.2 If Wiley fails to identify authors of articles in Hybrid Journals as Eligible Authors despite the Eligible Author correctly providing affiliation information at acceptance stage at the latest, Wiley shall be responsible for rectifying the status of the article to open access even after publication. Where there are OA funds available, upon issuing the correction and rectifying the status of the Accepted Article, the APC for the article shall be deducted from the OA Fund, in accordance with the terms of this Contract.

2.3 If Wiley fails to identify Eligible Authors as eligible despite the Eligible Author correctly providing affiliation information at acceptance stage at the latest and then charges them for publication of their article, Wiley shall refund the author within 30 days from receiving a written notification establishing the misidentification, and where OA funds are available, the APC for the article shall be deducted from the OA Fund in accordance with the terms of this Contract.

3. Verifica delle richieste

3.1. Wiley notificherà l'Istituzione via e-mail e / o il dashboard WOAA ("WOAD") (a seconda di come l'istituzione ha configurato il WOAD) ogni volta che un Autore Ammissibile di un Articolo Ammissibile viene identificato come affiliato all'istituzione e seleziona l'opzione di pubblicazione il suo articolo in accesso aperto per le riviste ibride. L'istituzione esaminerà quindi la richiesta in sospeso, verificherà se l'autore è affiliato alla rispettiva istituzione e approverà o rifiuterà questo articolo all'interno del proprio WOAD. Il record dell'articolo nella dashboard includerà tutti i metadati necessari inclusi, ma non limitati a, nome e indirizzo e-mail dell'autore, nome completo dell'affiliazione dell'autore (ad esempio università, istituto, dipartimento), data di accettazione, titolo della rivista, ID del manoscritto (se applicabile), titolo dell'articolo, tipo di articolo, importo dell'APC.

3.2. Le richieste devono essere gestite tempestivamente dall'Istituzione con l'obiettivo di approvazione o rifiuto della richiesta entro 5 giorni lavorativi. Se l'istituzione richiede più di 5 (cinque) giorni lavorativi per confermare o negare se un autore è affiliato, l'istituzione informerà Wiley e Wiley fornirà un'estensione per il numero di giorni richiesto. L'Istituzione ha il diritto di rifiutare articoli da pubblicare ai sensi del presente Accordo se l'Autore Ammissibile non è affiliato a un'Istituzione, nel qual caso l'Autore Ammissibile avrà la possibilità di pagare l'APC o di pubblicare in abbonamento. Nel caso in cui Wiley non riceva un'approvazione o un rifiuto della richiesta da parte dell'Istituzione, la presentazione sarà considerata approvata. Al fine di garantire la produzione e la pubblicazione tempestive degli articoli, gli articoli continueranno il processo di produzione durante la determinazione dell'ammissibilità.

4. Pubblicazione di articoli

4.1 Le versioni finali degli Articoli Ammissibili verranno pubblicate online senza indugio e in prima istanza ad accesso aperto se la richiesta è stata approvata dal Sottoscrittore. Gli Articoli Ammissibili pubblicati nelle Riviste ibride saranno ospitate dall'Editore come parte delle Riviste ibride e altrimenti pubblicate nello stesso modo dei Prodotti in abbonamento concessi in licenza ai sensi del presente Contratto.

3. Verification of Requests

3.1. Wiley shall notify the via email and/or the WOAA dashboard ("WOAD") (depending on how the Institution has configured the WOAD) each time an Eligible Author of an eligible article is identified as affiliated to the Institution and selects the option to publish his/her article as open access for Hybrid Journals. The Institution shall then review the pending request, verify if the author is affiliated with the respective Institution, and approve or deny this article within their WOAD. The article record in the dashboard will include all necessary metadata including, but not limited to, name and email address of the author, full name of author's affiliation (e.g. university, institute, department), acceptance date, journal title, manuscript ID (if applicable), article title, article type, amount of the APC.

3.2. Requests shall be handled promptly by the Institution with the goal of approval or denial of the request within 5 business days. If the Institution requires more than 5 (five) business days for confirming or denying if an author is affiliated, the Institution shall notify Wiley and Wiley will provide an extension for the requested number of days. The Institution has the right to reject articles to be published under this Agreement if the Eligible Author is not affiliated to an Institution, in which case the Eligible Author will be offered the opportunity to pay the APC or to publish under subscription terms. In case Wiley does not receive either an approval or a denial of the request from the Institution the submission will be deemed approved. In order to ensure timely production and publication of articles, articles will continue the production process while eligibility is being determined.

4. Articles Publication

4.1 Final versions of Eligible Articles are published online without delay and in the first instance open access when the request has been approved by the Subscriber. The Eligible Articles published in the Hybrid Journals will be hosted by Publisher as part of the Hybrid Journals, and otherwise published in the same manner as Subscribed Products licensed under this Contract.

4.2 Wiley si adopererà per introdurre un flusso di lavoro per permettere di identificare tutti gli articoli ad accesso aperto nelle riviste ibride pubblicate ai sensi del presente contratto come reso possibile dal Sottoscrittore nel documento stesso (ad esempio, una nota a piè di pagina nella versione del record indicherà "Finanziamento ad Aperto Accesso fornito da {nome istituzione} nell'ambito del contratto CRUI-CARE "). Questa nota può essere modificata con il consenso del Sottoscrittore. Fino a quando non sarà possibile implementare un flusso di lavoro adeguato durante il Termine, gli autori possono includere questa dichiarazione nella sezione dei riconoscimenti dell'articolo (nella fase di correzione per le riviste ibride) e Wiley e il Sottoscrittore lavoreranno insieme per determinare un meccanismo appropriato per comunicare questa istruzione agli autori.

4.3 Al momento della pubblicazione, Wiley fornirà all'Autore Ammissibile via e-mail un collegamento alla versione del record del proprio articolo con un meccanismo per accedere alla copia PDF, al DOI dell'articolo e incoraggiamenti a condividere l'articolo, ad esempio tramite social media, blog e archivi.

5. Obblighi di Wiley

In considerazione dei pagamenti elencati nell'Allegato n. 6 e visti i termini e le condizioni del presente Contratto, Wiley dovrà durante la Durata:

5.1 non addebitare a un Autore Ammissibile un APC per qualsiasi articolo presentato da tale Autore Ammissibile e accettato per la pubblicazione in un giornale ibrido ad accesso aperto, a condizione che l'autore idoneo invii detto materiale in base al flusso di lavoro WOAA proposto da Wiley e che rimangano fondi sufficienti nel Fondo OA per coprire il corrispettivo dell'APC. Se un Autore Ammissibile richiede a Wiley di modificare la modalità di pubblicazione (ovvero rendere il proprio articolo ad accesso aperto quando originariamente ha scelto di non rendere il proprio articolo ad accesso aperto) della sua sottomissione prima della pubblicazione, Wiley verificherà la possibilità con il Sottoscrittore; non è possibile apportare modifiche dopo la pubblicazione. Qualsiasi APC sostenuta al di fuori del flusso di lavoro WOAA non è coperta dal presente Contratto;

5.2 includere il Sottoscrittore nel sito dei servizi per gli autori di Wiley per tutti i periodici ibridi come titolare di un conto istituzionale;

4.2 Wiley will endeavor to introduce a workflow to enable labeling all open access articles in Hybrid Journals published under this Contract as made possible through Subscriber [Name of Institution] in the paper itself (e.g., a footnote in the version of record shall state "Open Access Funding provided by {institution name} within the CRUI-CARE Agreement"). This enabling note can be adjusted with the consent of the Subscriber. Until a proper workflow can be implemented during the Term, authors can include this statement in the acknowledgments section of the article (at the proofing stage for Hybrid Journals), and Wiley and the Subscriber will work together to determine an appropriate mechanism to communicate this instruction to the authors.

4.3 Upon publication, Wiley will provide the Eligible Author by email with a link to the version of record of their article with a mechanism to access the PDF copy, the article's DOI and encouragements to share the article, for example via social medias, blogs and repositories.

5. Wiley's Obligations

In consideration of the payments listed in Appendix No. 6 and subject to the terms and conditions of this Contract, Wiley shall during the Term:

5.1 not charge an Eligible Author an APC for any Accepted Article submitted by such Eligible Author that is accepted for publication in a Hybrid Open Access Journal, provided the Eligible Author submits said material according to the WOAA workflow put forward by Wiley and there remain sufficient funds in the OA Fund to cover the APC fee. If an Eligible Author requests Wiley to change the publication basis (i.e. make their article open access when they originally opted not to make their article open access) of his/her submission prior to publication, Wiley will verify the possibility with the Subscriber; changes cannot be made post-publication. Any APC incurred outside the WOAA workflow is not covered by this Contract;

5.3 fornire un collegamento dalla voce per il Sottoscrittore nell'elenco degli account istituzionali nella Wiley Online Library al sottoscrittore stesso;

5.4 identificare sulla Wiley Online Library gli articoli che sono disponibili ad accesso aperto nelle riviste Hybrid;

5.5 Quando fornito dall'Autore Ammissibile, Wiley si impegna a utilizzare ORCID (<http://orcid.org/>) durante tutto il flusso di lavoro dall'invio alla pubblicazione e ad esporre l'ID ORCID degli autori corrispondenti nei loro articoli e tramite i servizi di Abstracting & Indexing (A&I), CrossRef e altri servizi di discovery.

5.6 Dopo la pubblicazione di un articolo, Wiley registrerà quanti più metadati possibile su CrossRef, incluso ma non solo: (1) l'identificativo dell'oggetto digitale (DOI) dell'articolo, (2) i metadati del finanziamento, inclusi il nome del finanziatore e il numero della sovvenzione, nei metadati in Funder Registry (su CrossRef), (3) citazioni bibliografiche e (4) la licenza Creative Commons utilizzata.

5.7 L'Editore notificherà al Sottoscrittore quando il 70% dei corrispettivi per la pubblicazione sono stati spesi in un anno durante la Durata e ogni successiva riduzione del 5% .

Se il numero totale di titoli di riviste ibride è a) ridotto del 5% o più rispetto all'elenco dei titoli dell' anno precedente, e / o b) i titoli di riviste ibride rimossi rappresentavano più del 5% degli Articoli accettati che, entro il rispettivo anno, erano stati pubblicati nei titoli delle riviste ibride rimossi, e c) da una valutazione equa e obiettiva, le riviste ibride aggiunte non sono sufficienti per sostituire i titoli delle riviste ibride rimossi, CRUI e L'Editore possono concordare reciprocamente una rinegoziazione del Fondo APC per i successivi anni della Durata.

Resta inteso che durante la durata del contratto i periodici che passano dal modello ibrido al modello gold non usciranno dal contratto ma continueranno a rimanere oggetto del contratto.

5.8 Se richiesto dall'Istituzione, l'Editore dovrà creare un Account Wiley Open Access ("WOAA") per l'Istituto entro 20 giorni lavorativi dalla ricezione di una richiesta da CRUI per impostare l'account WOAA con tutti i dettagli necessari riguardanti l'Istituzione.

5.2 include the Subscriber in Wiley's author services site for all Hybrid Journals as an institutional account holder;

5.3 provide a link from the entry for the Subscriber on the Institutional Account List on Wiley Online Library to the Subscriber;

5.4 identify on Wiley Online Library the articles that are available on an open access basis in the Hybrid Journals;

5.5 When provided by the Eligible Author, Wiley undertakes to use ORCID (<http://orcid.org/>) throughout the workflow from submission to publication and expose Corresponding Authors' ORCID ID in their articles and via Abstracting & Indexing (A&I) services, CrossRef and other discovery services.

5.6 Upon publication of an article, Wiley will register as much metadata as possible on CrossRef, including, but not limited to: (1) the article's digital object identifier (DOI), (2) the funding metadata, including funder name and grant number, in the metadata in Funder Registry (on CrossRef), (3) bibliographic citations and (4) the Creative Commons license used.

5.7 The Publisher will notify the Subscriber when 70% of the Publishing fees have been expended in any year during the Term and each 5% reduction thereafter.

If the total number of Hybrid Journals titles is a) reduced by 5 % or more compared to the title list of the respective previous year of the Term, and/or b) the removed Open Access Journals titles represented more than 5% of the Accepted Articles which, within the respective year, had been published in the removed Open Access Journals titles, and c) by a fair and objective assessment, newly added Open Access Journals will not be sufficient to replace the removed Open Access Journals titles, CRUI and Publisher may mutually agree to a renegotiated APC Fund for the following calendar years of the Term.

It is understood that during the term of the contract, the journals that switch from the hybrid model to the gold model will not exit from the contract but will continue to remain the object of the contract.

6. Indipendenza editoriale

Niente nel presente documento obbliga Wiley a pubblicare qualsiasi articolo inviato a Wiley da un Autore Ammissibile. Il Sottoscrittore riconosce che la selezione del materiale da pubblicare nelle riviste ibride è interamente a discrezione di Wiley / degli editors delle riviste ibride e il Sottoscrittore rinuncia a qualsiasi reclamo che potrebbe avere nei confronti di Wiley nel caso in cui Wiley o i suoi editors rifiutino di pubblicare qualsiasi materiale (o parte di esso) inviato da un Autore Ammissibile. Un articolo sarà considerato selezionato per la pubblicazione una volta che l'Autore Ammissibile è stato informato che l'articolo è stato accettato e Wiley ha ricevuto l'accordo per l'autore applicabile per l'Hybrid Open Access Journal firmato dai titolari dei diritti dell'articolo.

7. Reportistica

7.1 Wiley fornirà a CRUI un rapporto trimestrale, in un formato leggibile a macchina, tutti gli articoli di autori affiliati alle Istituzioni pubblicati nelle riviste ibride di Wiley, indicando il tipo di rivista. I rapporti devono includere i seguenti dettagli:

- Nome e indirizzo e-mail dell'Autore Ammissibile

- tipo di licenza
- Ente finanziatore (finanziatore della ricerca se disponibile)
- Costo APC e data di approvazione nel dashboard (se applicabile)

Non tutti questi campi sono disponibili per ogni articolo e verranno inclusi ogni volta che saranno disponibili.

7.2 Wiley fornirà annualmente un rapporto su quante riviste di Wiley sono passate durante l'anno da / a un modello di abbonamento a / da un modello ad accesso aperto, compreso il modello ibrido. Wiley includerà nel rapporto la

5.8 If required by the Institution, the Publisher shall set up a Wiley Open Access Account (“WOAA”) for the Institution within 20 business days from receiving a request from CRUI to set up the WOAA account with all the necessary details regarding the Institution.

6. Editorial Independence

Nothing herein shall oblige Wiley to publish any article submitted to Wiley by an Eligible Author. The Subscriber acknowledges that the selection of material to be published in the Hybrid Journals is entirely at the discretion of Wiley/the editors of the Hybrid Journals and the Subscriber waives any claim it may have against Wiley in the event that Wiley or its editors refuse or decline to publish any material (or part thereof) submitted by an Eligible Author. An article will be considered to be selected for publication once the Eligible Author has been notified that the article has been accepted and Wiley has received the applicable author agreement for the Hybrid Open Access Journal signed by the right holder(s) of the article.

7. Reporting

7.1 Wiley will provide CRUI a quarterly report, in a machine-readable format, all articles from authors affiliated with the Member Institution published in Wiley’s Hybrid journals, indicating the journal type. The reports shall include the following details:
