LETTER OF INTENT

**RE: Participation of the University of Messina to the European Training Network
“Active Matter: From Fundamental Science to Applications” as Associated Partner.**

To whom it may concern,

We are delighted to confirm that the University of Messina is happy to participate in the Marie Curie Initial Training Network (ITN) “Active Matter: From Fundamental Science to Applications” as an Associated Partner.

The “Dipartimento di Scienze Matematiche e Informatiche, Scienze Fisiche e Scienze della Terra” (MIFT) of the University of Messina is actively collaborating with the CNR-IPCF, Istituto per i Processi Chimico Fisici of the CNR (Italian National Research Council) who is a beneficiary of the ITN project. Moreover, Dr. Onofrio M. Maragò (CNR-IPCF), who is part of the ITN project, is a member of the Doctoral School in Physics of the University of Messina.

In the framework of the ITN project, the University of Messina plans to:

- Issue the PhD position for ESR2, hired by the CNR-IPCF, within the Doctoral School in Physics of the University of Messina
- Professor Rosalba Saija, who is part of the MIFT department and the Doctoral School in Physics of the University of Messina, will act as co-supervisor of the ESR2 and will be part of the Supervisory Board of the ITN project
- It is understood that all the training for the ESR2 will be provided within the ITN project.

We look forward to a fruitful participation and collaboration.

Rector of the University of
Messina
Prof. Salvatore Cuzzocrea
