Professor Roberta Salomone
Full Professor in Environmental Management and Industrial Ecology
Commodity Sciences
Department of Economics
Building G - Room 76
University of Messina
Piazza S. Pugliatti, 1
98122 Messina Italy

Dear Roberta,

I am pleased to provide confirmation of the completion of the early stage researcher selection process for the Marie Skłodowska Curie Innovative Training Network 'Cresting' and the decision with respect to the successful applicant for the post at the University of Messina (work package 5, project 2).

As you are aware, applicants were shortlisted and interviewed by the team for the respective work package. Decisions were ratified by online meetings of the board of supervisors 1) to confirm the lists of candidates to be interviewed and 2) to confirm the list of applicants to be offered a position. I confirm that the candidate selected for project 5.2 is **Erik Roos Lindgreen**.

Please find attached the agendas and minutes for the two online board of supervisors meetings in addition to the interview questions and the post-interview ranking lists for all 15 projects following the second board meeting.

Do not hesitate to ask if you require any further information.

Yours sincerely,

Dr. Pauline Deutz.
Cresting Project Coordinator
Reader, School of Environmental Sciences
