FormId KA205-8DD575B6 Deadline (Brussels Time) 12 Feb 2019 12:00:00

Project Summary

Call 2019 Round 1 KA2 - Cooperation for innovation and the exchange of good practices
KA205 - Strategic Partnerships for youth
FormId KA205-8DD575B6 Deadline (Brussels Time) 12 Feb 2019 12:00:00

Please provide a short summary of your project. Please recall that this section (or part of it) may be used by the European Commission, Executive Agency or National Agencies in their publications. It will also feed the Erasmus+ Project Results Platform.

Be concise and clear and mention at least the following elements: context/background of project; objectives of your project; number and profile of participants; description of activities; methodology to be used in carrying out the project; a short description of the results and impact envisaged and finally the potential longer term benefits. The summary will be publicly available in case your project is awarded.

In view of further publication on the Erasmus+ Project Results Platform, please also be aware that a comprehensive public summary of project results will be requested at report stage(s). Final payment provisions in the contract will be linked to the availability of such summary.

In the recent years, millions of people have been displaced due to the civil war in their countries such as Syria. At the beginning, people were forcibly displaced to the neighboring countries such as Egypt, Lebanon, Jordan and Turkey. Of these countries, Turkey ranks first as most refugee hosting countries. In Turkey, a border city Sanliurfa is the city that hosts the most refugees after Istanbul. Along the years passed and with the continuation of internal turmoil in Syria, the refugees seem no longer thinking of going back to their country. Therefore, the process of being integrated into the society where they live should start as soon as possible.

Only a small portion of up to 10% of the refugees living in Turkey are living in the Temporary Accommodation Centers (Refugee Camps). In time, these centers will also be closed. So, in general one of the world's and in particular Turkey's most important problem is the social inclusion of the refugees. Therefore, in this project, we aim to contribute to the problem of social inclusion by producing a solution proposal through entrepreneurship. We want to work with young people for social inclusion. Young people, if they have a job, facilitate their social inclusion, thus contributing to social integration by creating an exemplary role for their community as stronger individuals.

The main aim of the project is to provide for age groups between 25 and 30 a means of improving their life-chances and re-integrating them into society. This will be via the creation of a road map and creation of a feasibility study and model for the development of such policies. In such a way, immigrant youth will be given the opportunity to become part of society and feel part of the wider community. The method chosen to facilitate such a reintegration is the social entrepreneurship. For this, there will be a mentorship system used within the scope of the project. Firstly, 20 social entrepreneur mentor candidates will be given training from different social entrepreneur back ground. Candidates who are successful at the end of the training will become part of the mentor pool. Within the same period, 40 young entrepreneur candidates will be selected by running a joint study with our local / international partners. The youth will receive social entrepreneurship trainings through formal / non-formal / e-learning education methods. Later, having picked from the pools of mentors according to the areas of interest, mentors and mentees will be matched. Young social entrepreneur candidates will subsequently be guided and mentored.

As a result, this could contribute to the employment of young people with fewer opportunities. The project will also support their cultural adaptation in the society, the development of their social responsibilities and the development of industry in the region. The project to be implemented will be benefit from co-operation with international project partners, and will help facilitate a path towards further social and communal integration. The project aims to increase the level of prosperity and employment in the region via the initiative undertaken by Sanliurfa (Teknokent) Sciencepark and national/international partners civil institutions and universities. Such a project is also appropriate to

Call 2019 Round 1 KA2 - Cooperation for innovation and the exchange of good practices
KA205 - Strategic Partnerships for youth
FormId KA205-8DD575B6 Deadline (Brussels Time) 12 Feb 2019 12:00:00

the aims and mission of the European Union and such increased co-operative actions between universities, civil institutes and private industries will be of benefit and use for young people with fewer opportunities. It will also be a means for increased opportunity for R&D and innovation in the area of technology.

In this context;
a) A "University, NGO, Public Institution and Industry Cooperation Center" for migrants will be established within the Sanliurfa Sciencepark.

b) Serve as an interface between industry, university and civil institutions and this will play an important role towards the achievement of Sanliurfa Sciencepark.

c) The transfer of information and technology between the University and the Industry will be increased thus facilitating further joint projects to be carried out in the future.

d) Enabling young refugees to be empowered through entrepreneurship trainings.

e) With the mentoring system, young entrepreneurs who have the possibility of social entrepreneurship will be supported to realize their entrepreneurial dreams and their post-project situations will be followed.

f) Situational analysis will be carried out with sociological field studies on the entrepreneurship of young refugee youth.

g) In this project, which will be implemented with our international partners, information exchanges, various comparisons and shared experiences will be prepared in a joint report.

h) The web-based Entrepreneurship Management portal will constitute both as a source portal and as an example of modelling for future implemented projects. The Web portal will be a sustainable platform to bring together social entrepreneurs, trainers and mentors.

Call 2019 Round 1 KA2 - Cooperation for innovation and the exchange of good practices
KA205 - Strategic Partnerships for youth
FormId KA205-8DD575B6 Deadline (Brussels Time) 12 Feb 2019 12:00:00

Please provide a translation in English. This summary will be publicly available in case your project is awarded.

In the recent years, millions of people have been displaced due to the civil war in their countries such as Syria. At the beginning, people were forcibly displaced to the neighboring countries such as Egypt, Lebanon, Jordan and Turkey. Of these countries, Turkey ranks first as most refugee hosting countries. In Turkey, a border city Sanliurfa is the city that hosts the most refugees after Istanbul. Along the years passed and with the continuation of internal turmoil in Syria, the refugees seem no longer thinking of going back to their country. Therefore, the process of being integrated into the society where they live should start as soon as possible.

Only a small portion of up to 10% of the refugees living in Turkey are living in the Temporary Accommodation Centers (Refugee Camps). In time, these centers will also be closed. So, in general one of the world's and in particular Turkey's most important problem is the social inclusion of the refugees. Therefore, in this project, we aim to contribute to the problem of social inclusion by producing a solution proposal through entrepreneurship. We want to work with young people for social inclusion. Young people, if they have a job, facilitate their social inclusion, thus contributing to social integration by creating an exemplary role for their community as stronger individuals.

The main aim of the project is to provide for age groups between 25 and 30 a means of improving their life-chances and re-integrating them into society. This will be via the creation of a road map and creation of a feasibility study and model for the development of such policies. Erasmus+

Participating Organisations

Please note that the PIC code is a unique identifier for the organisation within the whole Erasmus+ Programme. It should be requested only once per organisation and used in all applications for all Erasmus+ actions and calls. Organisations that have previously registered for a PIC should not register again. If an organisation needs to change some of the information linked to the PIC, this can be done through the Participant Portal.

Background and Experience

Please briefly present the organisation/group (e.g. its type, scope of work, areas of activity and if applicable, approximate number of paid/unpaid staff, learners and members of the group).

Directorate General for Migration Management was established by Law of 04/04/2013 No. 6458 on Foreigners and International Protection. Article 103 of Law no 6458 governs the establishment of the Directorate General. Mentioned Law was published in the Official Gazette of 11/04/2013 No 28615, and Directorate General for Migration Management was established on the same date. Law on Foreigners and International Protection stipulates; "ARTICLE 103 – (1) The Directorate General for Migration Management has been established under the Ministry of Interior with a view to implement policies and strategies related to migration; ensure coordination between the related agencies and organizations in these matters; carry out the tasks and procedures related to foreigners' entry into, stay in, exit and removal from Turkey, international protection, temporary protection and protection of victims of human trafficking. "

Background and Experience

Please briefly present the organisation/group (e.g. its type, scope of work, areas of activity and if applicable, approximate number of paid/unpaid staff, learners and members of the group).

The aim of the Center is to conduct strategically-guided humanities-focussed research, reviews, and education programs on the topic and issue of internal and external migration and of migrants. Such research will comprise the spheres of historical, political, economic, legal and international relations as well as sociological fields. Mission a) Research activities: 1) The work will take into consideration the fact that Turkey is an important locus of international migration and will comprise research studies and analyses of historical, present-day and future migration dynamics both in the context of internal migration in Turkey as well as multi-directional external migration dynamics which also include Turkish migrants who live outside of Turkey. In addition, the research and data will be made available to government agencies and civil institutions. 2) Conducting assembly of documents amd research with respect to both the current and likely future observed impacts and implications of internal and external migration on Turkish internal and external policy, economy as well as social and cultural structures and dynamics. The research will be shared with interested parties as required. 3) Conduct studies on the issue of Turkish migrants living outside the country 4) Formulation ofstrategies and conducting studies concerning the relationships between migrants and Turkey as well as study of possible contributions to both Turkish internal policy areas and that of the European Union. 5) Evaluation of the relationship between the economic, political and cultural structures of particular nations wherein migrants frequently reside as well as examination of any resultant changes that occur in such countries. 6) Preparation and application of projects relevant to the areas of activity of the research center as well as collaboration with other institutions and research centers as required. 7) Research will include evaluation of the regional and global roles of the aforesaid countries as well as predictions of future conditions. 8) Collaboration with scientists and experts from both Turkey and other countries in studies connected with the area of interest of the research center 9) Establish collaborative resource research and co-ordination with university departments and migration research specialists from the respective countries. 10) To conduct internationally standardized and accepted research on the characteristics, profiles, needs, expectations, problems, values, and other areas pertaining to migrants living abroad. b) Education activities: 1) Arranging and hosting joint seminars, symposiums, conferences and other related activities with research centers and with universities both in Turkey and in the respective countries where such migrants are most populous. 2) Consultancy and provision of training services with state institutions and various levels of education and teaching institutions from foreign countries as part of the scope and title of "research activities". 3) Arranging certificate programs with respect to internal and external migration issues. c) Publication activities: 1) To make presentations on the basis of theory, method and applications areas related to the aims of the Center 2) Conducting preparatory studies for an internationally qualified academic journal that is published once or twice a year and taking over the secretariat of these studies. 3) To publish reports on specific topics, regions, countries or periods. 4) Publication of bulletins. 5) Creation of a comprehensive archive.

Background and Experience

Please briefly present the organisation/group (e.g. its type, scope of work, areas of activity and if applicable, approximate number of paid/unpaid staff, learners and members of the group).

UniMe ranks second among large Southern Italy universities in the Italian university quality rankings. Furthermore, in the latest Italian research quality evaluation, UniMe achieved a 17% increase as compared to the previous evaluation, recording the best performance nationwide. UniMe offers courses in the field of life sciences, sciences and technologies, human and social sciences in its 12 Departments. Many undergraduate and postgraduate courses are available. There are more than 26,000 enrolled students. In the last several years the University has launched an intensive programme to promote international exchange. Founded in 1548, it is a growing University, so much so that in the last year the number of students has increased by 13%. UniMe is one of the main reference points for the city of Messina, the 13th city in Italy for size (with 240,000 inhabitants), that thanks to its geographic position is known as the "gateway to Sicily". Unime students represent more than 10% of the urban population. Many of them come from abroad. More than 800 mobility agreements have been signed by the University of Messina with foreign Universities from all over the world. Unime promotes international students exchange programmes at the European and international levels. UniMe encourages the internationalization policy through a wide range of collaborations with universities and foreign institutions, international networks and consortia. UniME has a wellestablished experience in European programmes (Erasmus + KA1 and KA2, and H2020 as well as Cross border cooperation projects). UniMe coordinates an Erasmus+ strategic partnership project and is partner in Erasmus+ KA2 CBHE projects and manages Erasmus+ KA107 and Ka103 mobility projects. UniMe has a well organized administrative structure promoting and supporting both internationalization, technology transfer and Placement. UniMe promotes the creation of spin-offs and start-ups created by students. UNIME has a Center of Orientation and Placement to help students in their study path and, after the diploma in the access the job market. Internationalization programmes are at the centre of the UniME development policy. Today UNIME welcomes students from 27 foreign countries as well as numerous visiting professors and visiting researchers. The city of Messina has always been a place of meeting and interaction between diverse cultures. The union of these elements makes studying at the University of Messina a unique experience. Facilities, services and a wide educational offer, allows students to follow paths of excellence (some of which are entirely held in English) in a context where cultural enrichment and entertainment are assured.

Call 2019 Round 1 KA2 - Cooperation for innovation and the exchange of good practices
KA205 - Strategic Partnerships for youth
FormId KA205-8DD575B6 Deadline (Brussels Time) 12 Feb 2019 12:00:00

What are the activities and experience of the organisation in the areas relevant for this project? What are the skills and/or expertise of key persons involved in this project? Please explain how the organisation brings an essential added value to the project.

UniMe is partner of numerous universities in European and International level. In the framework of the ERASMUS+ KA107 programme, Unime was funded - from 2015 to 2018 - almost 1.5 million Euro for 194 KA107 ICM mobility grants. Furthermore, UniMe is a partner of KA2 Capacity Building projects and Coordinator of a Strategic Partnership. The UniMe Orientation and Placement Center (COP) has a lot of experience in strategic partnerships as part of projects related to orientation and placement at national and international level. During its activities COP built an important territorial network by stipulating over 800 conventions and partnership agreements. COP take part to the main national and local orientation meetings and manage the International Skills Meeting. Our staff works for the job placement of its graduates and supports in their choices upper secondary students. The International Relations Unit counts 4 offices: Welcome Office devoted to the support of incoming students, Cooperation office, devoted to bilateral cooperation agreements, recognition of foreign qualification procedure, international students' enrolment procedures, Erasmus Office that manages the KA103 programme for students and staff, International education Programmes, managing projects for internationalization of the academic offer and Erasmus+ programme (KA107, EMJMD, KA2 projects). Our organization will bring to the project the skills and knowledge of the staff of the Orientation and Placement Center and of the International Relations Office. Our staff has a solid experience in the management of European projects, including those related to education, they are used to work in a team and able to build a communication campaign using "traditional" and "social" tools. Furthermore, in our University, we have the opportunity to draw on a wide range of professionalism and skills (eg researchers, educators, professors, pedagogists, psychologists etc.). Finally, the Orientation and Placement Center has a convention with Associazione Bios, responsible of the Eurodesk Center of Messina. Bios staff is experiecend in project management, communication and marketing, non-formal education, international mobility as sending and hosting organization.

Background and Experience

Please briefly present the organisation/group (e.g. its type, scope of work, areas of activity and if applicable, approximate number of paid/unpaid staff, learners and members of the group).

EGESYS is a private firm providing software solutions, training and consultancy services to its customers to improve their processes and to increase their Innovation capacity. EGESYS offers comprehensive mentoring software for business, non-profits and educational institutions. EGESYS mentoring software is a cloud-based application designed to meet the specific needs of mentoring programs in all aspects of mentor-mentee matching, day-to-day program management, and reporting. EGESYS develops and produces e-learning video modules for mentoring services in the Innovation Management, Entrepreneurship, and Digital Transformation areas. EGESYS also creates content, training, and tools to make social entrepreneurship more accessible and actionable. Mentor Academy training program aims to give competencies and enable mentor candidates to effectively transfer their experience and knowledge to SMEs, and Entrepreneurs in their areas of expertise. In 2016 EGESYS mentor training program won the EMCC (European Mentoring and Coaching Council) International Mentoring Award. Up to now more than 400 students have completed these mentoring courses. EGESYS conducts research and development activities in cooperation with local and international universities, research organizations and institutes as well as the leading industrial corporations. EGESYS is increasingly pursuing several research activities both internally and via external industry and university partnerships to explore and develop new technology solutions in the e-learning and mentoring programs for digitising industry. EGESYS is a member of NEM, NESSI and NetWorld 2020 technology platforms, the Digital Skills and Jobs Coalition and European Mentoring and Coaching Council. It believes in open innovation and cooperates with members of these technology platforms and initiatives. EGESYS management team represents over 75 years of experience. They have participated in a number of national and international R&D projects and the company has a wide network of local and international experts.

What are the activities and experience of the organisation in the areas relevant for this project? What are the skills and/or expertise of key persons involved in this project? Please explain how the organisation brings an essential added value to the project.

Key Personnel Serap Gökmen(F), graduated from Computer Engineering of Middle East Technical University in 1987. Participated in the development of Vakıfbank's Electronic Banking System after graduation. She has worked at Alcatel Telecom Design Centre in Stuttgart around 12 years as an R&D engineer, technical lead and project manager in a number of international R&D projects. She has worked as a technologist at Vestel Digital and represented Vestel in the DVB Consortium taking part in the DVB standard workgroups. She is one of the founders and manager of EGESYS since 2012 and supporting EGESYS customers in R&D and Innovation management areas. She is managing the development of mentoring programs for EGESYS customers and providing mentoring services and trainings as well. She has already coordinated "R&D Mentor Network" and Kobimen Academy (SME Mentor Academy) projects which were both funded by TUBITAK, national funding agency in Turkey, in its 1601 Support Programme for Increasing Capacity in Innovation and Entrepreneurship. She is accredited trainer of Innovation Academy of TIM and accredited consultant of KOSGEB (SME Consultant) and mentor of Global CleanTech Innovation Program 2017. H. Haluk Gökmen(M), BSc in Computer Eng. Middle East Technical University (METU), 1987. He has worked in Tele-, Data and Mobile- Communications about 15 years at Alcatel Telecom Design Centres in Europe (Stuttgart, Antwerp) and Australia (Sydney). He has worked as Software Design Manager at Vestel R&D between 2003-2007 for consumer electronics devices. He was the contact person and project manager for EU, EUREKA and National R&D projects for Beko/Grundig/Arçelik between 2007 and 2018. He has extensive experience in software development for real-time and embedded systems in Tele-, Data-, Mobile Communications and in Consumer Electronics domains. He has already successfully managed several larger R&D projects and participated in many EU framework program projects including VICON, DIOMEDES, ROMEO, FInest, FIspace, PRACTICE, FALCON, DISRUPT, IoRL and C-SERVEES. Mustafa Öz(M), B.Sc. in Electronics and Communication Engineering, Istanbul Technical University, 1984. M.Sc., 1994, in Business Administration at European University in Brussels. Worked at Turk Telekom as a telecommunications engineer. He moved to Alcatel and worked as HW/SW design engineer and later as service center chief. He has worked at Alcatel Telecom in Belgium and Germany between 1986 and 2000 in the fixed and mobile switching systems as software designer, tester and integrator. He has leaded messaging system operating groups in Turkcell between 2000 and 2006. He was the Network Service Department manager at GSM Kazakhstan between 2006 and 2009 and he was leading, coaching and mentoring the development teams for the creation of ICT strategies, developing products and R&D projects. He was the technology and business development consultant for Telener between 2010 and 2012. He has participated in EGESYS' "R&D Mentor Network" and Kobimen Academy (SME Mentor Academy) projects between 2014 and 2016 as mentor and mentor trainer. He is supporting EGESYS customers to improve their processes and in Mentoring programs and training. Relevant Publications N.A. Background and Experience

Please briefly present the organisation/group (e.g. its type, scope of work, areas of activity and if applicable, approximate number of paid/unpaid staff, learners and members of the group).

The Institute of Entrepreneurship Development (iED) is a Greek organisation committed to the promotion of innovation and the enhancing of the entrepreneurial spirit. By recognizing entrepreneurship as a crucial factor for the development and cohesion of societies, we conduct research and we are in position to provide innovative solutions that facilitate the growth of healthy entrepreneurship and promote employment. In order to achieve our goal, we adopt an anthropocentric approach and cooperate with social, academic and business partners from Greece and abroad, aiming at producing and transferring know how, promoting entrepreneurial culture and enhancing the effectiveness and viability of enterprises. In our fourteen-year long activation, we have participated among others in the planning, implementation and evaluation of more than 100 National and European projects, something which gave us a unique insight in the practical aspects of implementing large scale co-funded projects and also provided us with an extremely wide network of collaborating organizations both from Greece and abroad. Our participation in the aforementioned projects gave us also the opportunity to produce and collect a large number of innovative tools and products on all aspects of entrepreneurship and lifelong learning, available to be further processed and utilized. Since 2005, the year of iED's establishment, we have been oriented towards that direction and have implemented a wealth of actions and initiatives, making us a highly specialized organization in the following indicative fields of expertise: • Entrepreneurship Innovation, on-going consultancy, support and strategic visioning that all lead to the enhancing of the spirit of entrepreneurship. • Education and training Diagnosing the educational and training needs of individuals and groups, developing of training curricula and delivery of customized training courses. • Employment and social inclusion Identifying skills gaps, cultivating necessary skills and dexterities for successful labor market inclusion, developing professional profiles, investing in comprehensive career guidance and lifelong consultancy. • Regional Development Measures targeted at local and regional development through the mapping of available resources and the maximizing of their potential. • E-learning Learning design and development, online applications, custom learning solutions and placing education and training in a virtual environment. • Youth Facilitating youth inclusion and participation in all walks of life. • SMEs Start-up assistance, reliable business guidance through all stages of operation and custom made training solutions enhance the viability and potential of SMEs Here at iED we provide the following integrated, custom-made services to our target groups: 1. Business consulting & support 2. Improvement and certification of professional skills 3. Organizational support & production and transfer of innovation and know-how 4. Project planning, submission and management 5. Information technology applications to facilitate learning and entrepreneurial processes

Erasmus+

Project Description

Priorities and Topics

Please select the most relevant horizontal or sectoral priority according to the objectives of your project.

YOUTH: Promoting entrepreneurship education and social entrepreneurship activities among young people

If relevant, please select up to two additional priorities according to the objectives of your project.

YOUTH: Promoting engaging, connecting and empowering young people

YOUTH: Promoting quality, innovation and recognition of youth work

Please comment on your choice of priorities.

The phenomenon of migration is today the most important issue in the world's agenda. Especially in recent years, millions of people have been displaced due to the civil war in Syria and there has been a massive mass migration. In the first place people who were forcibly evacuated because of the war displaced from their homes to neigbouring countries such as Lebanon, Jordan, Egypt and Turkey. Of these countries, Turkey ranks first in without doubt as most refugee hosting countries. Sanliurfa is the city that hosts the most refugees are in Turkey after Istanbul. In the intervening years and the possibility of the continuation of the conflict in Syria and in refugee statuses in Turkey refugees are no longer thinking of going back. Therefore, the process of being integrated into the society should start and empowered as soon as possible. one of the the best ways of the social inclusion in general is to be employed or to be an entrepreneur.

Only a small portion of up to 7% of the refugees living in Turkey are living in the Temporary Accommodation Centers (Refugee Camps). In time, these centers will be closed as the policy of the Directorate General of Migration Management (Turkey). It is because of the living conditions of these centers for many year. It is not suitable for the honour of humans. Not only in Turkey but in general one of the world's most important problems is the problem of social inclusion of the migrants especially refugees who are forced to be displaced from their homelands. Therefore, in this project, we aim to contribute to the problem of social inclusion by producing a solution proposal through social entrepreneurship of young refugees who are young with fewer opportunities . We want to work with young people especially when reaching this goal. Young people, if they have a job, facilitate their social inclusion, thus contributing to social integration by creating an exemplary role for their community as stronger and empowered individuals.

Since the Erasmus+ aims at promoting equity and inclusion by facilitating the access to participants with fewer opportunities and disadvantaged backgrounds compared to their peers. Also the transnational strategic partnerships aim to develop initiatives addressing the field of youth and promote innovation, exchange and know-how between different types of organizations involved in youth. So that, we believe that designing skill developing programs that young man and woman refugees' skills and matching them with the needs of the market will improve refugees' quality of life, empower their inclusion in the society and contribute to the economy which makes it easy to be included in the society.

Call 2019 Round 1 KA2 - Cooperation for innovation and the exchange of good practices
KA205 - Strategic Partnerships for youth
FormId KA205-8DD575B6 Deadline (Brussels Time) 12 Feb 2019 12:00:00

Please select up to three topics addressed by your project.

Social entrepreneurship / social innovation

Integration of refugees

Youth (Participation, Youth Work, Youth Policy)

Project Description

Please explain the context and the objectives of your project as well as the needs and target groups to be addressed.Why should this project be carried out transnationally?

Turkey has the highest population of the refugees (forced migration) in the world. Because of the Syrian Internal Conflict, millions of people have been displaced from their hometowns. After the city of Istanbul, the city of Sanliurfa hosts the highest number of refugees which is about 600.000 people.
There are many effects of the Syrian Crisis in Turkey, such as:
Population, Demography, Socio-Cultural Change
The Structure of the city and municipality services
Local working market and local economy
Social Entrepreneurship
Social Inclusion Problems.
Adoption of the work permit regulation for temporary protection status holders in 2016 is an indicate of a shift towards long-term planning concerning the Syrian refugees in Turkey. Yet, many remain informally employed in poor and very bad conditions.
Especially refugees are dealing with many difficulties and disadvantages most importantly, educational difficulties, economic obstacles and cultural differences. In order to reduce these obstacles and disadvantages. In the project we will try to make one of the aims of the Erasmus+, social inclusion, through social entrepreneurship. Because we believe social entrepreneurship covers the economy, education and culture.
For all these effects and reasons Turkey and the world need a long term and sustainable solutions for the humanitarian service. Unless the migration movement is handled well the ultimate result is often exclusion of individual migrants and their communities. According to the resources there are more than 100.000 young people in the city of Sanliurfa are unemployed. The majority of these people are refugees from Syria. So, we would like to carry out this project transnationally with the organizations from Turkey, Greece and Italy to have a strategic partnership and expert organizations to cope with this problem and exchange of good practices and exchanging the experiments of the partners.
In sum, youth with fewer opportunities, in this project are refugees who are belonging to a national or ethnic minority, with linguistic adaptation and cultural difficulties.

What results are expected during the project and on its completion?

The main result of the project (during and after the project) is to create opportunities for employment for the youth with fewer opportunities (young refugees between the age of 25-30). These young refugees will have a training for social entrepreneurship. After the training they will have mentors according to their interest areas. The project will also help to the local and international organizations to work on this issue and improve and build their capacities stronger. This project will end with creating working opportunities and sustainable social inclusion process for the local community and refugees who has limited access for the opportunity because of many reasons. Another sustainable result of the project is to create a mentor pool for the entrepreneur candidates. There will be 25 mentor candidates will be training to meet the refugees. After the training they will be in the mentorship tool.

Call 2019 Round 1 KA2 - Cooperation for innovation and the exchange of good practices
KA205 - Strategic Partnerships for youth
FormId KA205-8DD575B6 Deadline (Brussels Time) 12 Feb 2019 12:00:00

In what way is the project innovative and/or complementary to other projects already carried out by the participating organisations?

Previously similar projects were carried out by Sanliurfa Teknokent (Science Park) for the strengthening of the companies, particularly through mentoring in Turkey. Our project will be a project to strengthen youth with fewer opportunities and mentors for individual mentees. In this respect, we are introducing an innovative project.

How did you choose the project partners and what will they bring to the project? Does it involve organisations that have never previously been involved in a Strategic Partnerships project?

The project partners have been chosen according to their working and interest areas. Below, our partners and their interests were briefly written. Thus, we think that our project will be successful when they come together. All of the partners in the project have been involved in many strategic partnership projects with international partners. But for Erasmus+ Some of our partners has involved in Strategic Partnerships projects before. But the coordinator of this project and partners from Turkey has never previously been involved in a Erasmus+ Strategic Partnership project. Thus, they will have a very new experience for them. The partners which are new in the field will have the opportunity to expreince of Erasmus + facilities for social inclusion. Thus, a very important social responsibility will be fulfilled.
The project participants are chosen a combination of working areas as well as their legal status. Therefore in the project we have universities, NGOs, government institutions, and social entrepreneurs. All together coming under the umbrella of this project to create a strategic partnership.

Call 2019 Round 1 KA2 - Cooperation for innovation and the exchange of good practices
KA205 - Strategic Partnerships for youth
FormId KA205-8DD575B6 Deadline (Brussels Time) 12 Feb 2019 12:00:00

How will the tasks and responsibilities be distributed among the partners?

1- ŞANLIURFA TEKNOKENT (SCIENCEPARK): The location, building, and the management staff of the coordinating organization Teknokent is quite suitable for this project. Teknokent will take the full responsibility of the project. The companies that are on the board of directors are: Harran University, Şanlıurfa Governorship Investment Monitoring and Coordination Department, Şanlıurfa Commodity Exchange, Şanlıurfa Chamber of Commerce and Industry and Şanlıurfa Metropolitan Municipality. Therefore, this project will be carried out by Şanlıurfa Teknokent. In other words, the coordination of our project will be undertaken by Teknokent on behalf of all these institutions. So, in general Sanliurfa Teknokent will share the responsibility of the management of the project and some of the intellectual output of the project. Şanlıurfa Teknokent will also responsible of the
-the organization of the project launch event

2- Directorate General of Migration Management (Turkey): The Directorate General for Migration Management has been established under the Ministry of Interior with a view to implement policies and strategies related to migration; ensure coordination between the related agencies and organizations in these matters; carry out the tasks and procedures related to foreigners' entry into, stay in, exit and removal from Turkey, international protection, temporary protection and protection of victims of human trafficking. This partner will be consultant and helpful for the formalities of the project. It will also help us monitoring and the publication of the outputs of the project to a wider audience.

3- BERANET SOFTWARE: BERA YAZILIM, a Social Enterprise company, will be working on all software, social media, and online web portal, etc. projects of our project. Bera Yazılım will also be responsible of the preparation of online web portal and newsletter of the project

4- Ege Sistem Bilisim Hizmetleri Sanayi ve Ticaret Limited Sirketi, will be responsible from the trainings of the refugees and curriculum development working with our partner from Greece.

5- NSTITUTE OF ENTREPRENEURSHIP DEVELOPMENT, working together with Ege Sistem to build the curriculum and share the experience of the trainings of the social inslusion and entrepreneurship.

6- HARRAN UNIVERSITESI GOC POLITIKALARI UYGULAMA VE ARASTIRMALARI MERKEZI: The center, which conducts academic studies on immigrants and migrants especially in Şanlıurfa, will support the reporting of academic and especially intellectual outputs of our project. HÜGÖÇ will also be responsible of the preparation of project booklet and the management of the design, edition and publication of project booklet, framework guide and training materials.

7- HORİZON DERNEĞİ: Horizon is a non-governmental, non-profit humanitarian organization working in accordance with international standards of humanitarian privacy, seeks Through its educational, developmental and social activities to develop the lives of vulnerable people who are affected by conflicts , humanitarian crises and subjected to human rights violations. The partner will help in the project especially in the ares to reach young refugees. Horizon has a wide refugee network in the city of Sanliurfa.

8- UNIVERSITA DEGLI STUDI DI MESSINA, will support the reporting of academic and especially intellectual outputs of our project. Also the partner will share their experience on KA2 projects and migration works they have done before.

Call 2019 Round 1 KA2 - Cooperation for innovation and the exchange of good practices
KA205 - Strategic Partnerships for youth
FormId KA205-8DD575B6 Deadline (Brussels Time) 12 Feb 2019 12:00:00

If relevant, please identify and explain the involvement of associated partners, not formally participating in the project. Please explain how they will contribute to the implementation of specific project tasks/activities or support the dissemination and sustainability of the project.

The project is coordinated as Şanlıurfa Teknokent. The members of the board of directors of Şanlıurfa Teknokent are Harran University, Sanliurfa Governorship Investment Monitoring and Coordination Department, Sanliurfa Commodity Exchange, Sanliurfa Chamber of Commerce and Industry and Sanliurfa Metropolitan Municipality, as well as various large companies are under the management of Teknokent. Dissemination and exploitation of the results of our project are very important areas of the Erasmus+ project lifecycle. Thus, these institutions and organizations will provide their support to an activity that will be done by Teknokent. They will publish all the developments and announcements of the project on their social media accounts as well as in their websites. We will also be able to use the facilities and experience of these companies and institutions. This will add a great value to our project and serve to make the dissemination, announcement, sustainability and exploitation of the results of the project stronger.

Participants

Please briefly describe how you will select and involve participants in the different activities of your project?

Participants will be involved directly:

via social entrepreneurship training: 40 young refugees between the age of 25-30
These 40 young man and woman will be selected by an online application form on the website of the project. Before the application there will be invitation annoucements for application to be a candidate of social entrepreneurs. These young people are supposed to be refugees between the age of 25-30. We selected this age to make the training easy in the classroom and to empower the young people. Candidates will be selected as 20 male and 20 female candidates.

via mentorship training: 20 mentor candidates
Mentor candidates will apply online as a mentor candidate. They will be selected according to their CV, and theris working experience. These mentor candidates should have experience on managing and organization. They will be trained to be mentors to support the young people with fewer opportunities.

Participants will be involved indirectly from open access online web portal and social media account. Also there will be intellectual outputs and brochures and newsletters. These all will help the project to be known and indirectly involving people.

Participants with fewer opportunities: does your project involve participants facing situations that make their participation more difficult?	Yes
How many participants would fall into this category?	40

Call 2019 Round 1 KA2 - Cooperation for innovation and the exchange of good practices
KA205 - Strategic Partnerships for youth
FormId KA205-8DD575B6 Deadline (Brussels Time) 12 Feb 2019 12:00:00

Which types of situations are these participants facing?

Educational difficulties

Economic obstacles

Cultural differences

Refugees

Social obstacles

How will you support these participants so that they will fully engage in the planned activities?

There are no participants with fewer opportunities among the participants who will participate in the management meetings and represent the participating organizations. However, since our project will give trainings to the refugee youth, especially 40 entrepreneur candidates, these refugee youth is with fewer opportunities in various aspects. Various opportunities will be provided at Teknokent to participate in training and mentor-mentee interviews. In addition, road and food support will be provided to the participating young people who have difficulty in participating in the trainings.

Please describe briefly how and in which activities these persons will be involved.

40 Refugee youth (20 man - 20 woman)with fewer opportunities will join in the training courses on Social Entrepreneurship for a certain time. At the same time 20 mentor candidate will take mentorship training. These training will be given at the conference halls of Teknokent and also there will be online courses given by our partner organizations. After the trainings of both sides, there will be mentor mentee matching. These mentors will support mentees to start new social enterprises.

Call 2019 Round 1 KA2 - Cooperation for innovation and the exchange of good practices
KA205 - Strategic Partnerships for youth
FormId KA205-8DD575B6 Deadline (Brussels Time) 12 Feb 2019 12:00:00

Preparation

Please describe what will be done in preparation by your organisation/group and by your partners/group before the actual project activities take place, e.g. administrative arrangements, communication about the activities, selection of the persons, coaches, involvement of stakeholders, etc.

After getting approval for our project, first of all the coordinator of the project, Dr. Hakan Gülerce, will send an e-mail to the partners of the project. For this there will an e-mail list to be used for the communication. In this e-mail all partners will be invited to have an online meeting through Skype or Appear.in. In this meeting we will discuss about the kick-off meeting of the project which will happen in Sanliurfa. Particularly date and content of the kick-off meeting should be decided all together with the partners. All partners will be asked to provide one person for communication. This person will be asked to be available and make sure to respond all the emails on time. Another very important issue is all e-mails will go to all partners in order to make the knowledge and information accessible for all.

Before starting the activities of the project, Coordinator will make sure to organize a kick-off meeting in Sanliurfa at the first week of the project. In this meeting all partners will come together and work on the root and the way of the project to implement it in the best quality way. In the kick-off meeting all the partners with coordinator institution will sign and Interior Partnership Agreement. All responsibilities will be shared in a written format and signatures of the representatives of the organization will be collected under the responsibilities. We will focus on the ways and means of the communication between the partners in deep and make everything clear in this meeting. This is vital for the projects quality. The communication channels should always be open for a successful project. Before starting the project activities we will make sure of this issue.

Also, before project activities, we will make sure who are the representatives of the partner organizations. These people should be qualified for the project. These representatives will be selected according to their skills of communication, experience in the projects and managing/organization.

Another issue is to inform the University management about the project and to get their approval to use necessary places and facilities of the university during the project. This will also help us to get necessary approvals for any travel for the project in the future.

We will also ask our National Agency in Ankara for their comment and suggestions for a successful project. If there are any trainings and conferences on this we will definetly attend to improve our project management skills. We will also inform our partners to inform their institutions to make news on their websites and social media. This will also help us to disseminate the project's aims and will help us to keep the motivation high.

We will also work on the logistics before starting the project activities, especially in Sanliurfa we will make brain storming with our partners how we can deal with the means of logistics, accommodation and trainings. In short for all these preparations for the project implementation we will make sure all the partners are involved actively and say their thoughts and ideas and do the things together with the shared responsibilities.

Call 2019 Round 1 KA2 - Cooperation for innovation and the exchange of good practices

FormId KA205-8DD575B6 Deadline (Brussels Time) 12 Feb 2019 12:00:00

Management

Funds for Project Management and Implementation

Funds for 'Project Management and Implementation' are provided to all Strategic Partnerships based on the number of participating organisations and duration of the project. The purpose of these funds is to cover diverse expenses that any project may incur, such as planning, communication between partners, small scale project materials, virtual cooperation, local project activities, promotion, dissemination and other similar activities not covered by other types of funding. A partnership may receive a maximum of 2750 EUR of 'Project Management and Implementation cost' per month

Organisation Role	Grant per organisation and per month	Number of Organisations	Grant
Applicant Organisation	500.00 EUR	1	12000.00 EUR
Partner Organisation	250.00 EUR	7	42000.00 EUR
Total			54000.00 EUR

Please provide detailed information about the project activities that you will carry out with the support of the grant requested under the item 'Project Management and Implementation'

We will use the grant for management and implementation of the project. As we have agreed on to have strong communication between the partners we will use some of the grant for the communication expenses. Also time to time we will have our own meetings at our own organizations. At these meetings we will spend for some regular expenses. Also there will be many paperwork for this project where we will spend money. Some short transportation will be needed during the implementation of the project where we will use the money. This grand will make it easy for us to implement the project in a good quality.

Transnational Project Meetings

Call 2019 Round 1 KA2 - Cooperation for innovation and the exchange of good practices
KA205 - Strategic Partnerships for youth
FormId KA205-8DD575B6 Deadline (Brussels Time) 12 Feb 2019 12:00:00

Transnational project meetings: how often do you plan to meet, who will participate in those meetings, where will they take place and what will be the goal?

We plan to meet every 6 months, which is a general meetings where all the partners be there. These meetings are:

Month 1: Phase 1 Kick off Meeting in SANLIURFA. The goal is to come together and discuss about the final responsibilities of the project and start taking action in the project.

Month 2: Preparations and Road Map Design

Month 3: Meeting in Greece for Curriculum Building for Social Entrepreneurship

Month 4: Curriculum Preparation / Benefiting from Tubitak resources and Salto training toolkits.

Month 5: Applications for Mentor and Social Entrepreneur Candidates / and Selection

Month 6: After checking the final arrangements for the starting of the trainings of the young refugees and mentors. Starting of the trainings.

Month 7 - Month 12 : Trainings, reports.

Month 13: Experience Exchanging and Mentor Mentee Matching Meeting in ITALY. In this meeting we will have a general overview of our project and also work on the mentors and mentees, and their meeting details. Will prepare the first report of the project and will discuss about the report preparation responsibilities.

Month 14: Mentor - Mentee Matching and General Feedback Meeting

Month 15-17: Mentor Mentee Working

Month 18-21: Article Publishing

Month 22: Closing and Final Transnational Meeting in SANLIURFA. In this meeting we will work on the project intellectual outputs and will have a general overview of the project. And will share the responsibilities for the closing report of the project.

Month 23-24: Submitting Final Report of the Project

Please specify the funds requested to organise the planned Transnational Project Meetings.

Project Management

How will you ensure proper budget control and time management in your project?

Our project coordinator Dr. Hakan Gülerce has experience on the budget control and time management of the project. He has a master degree on Managing and Organization Department in Marmara University. He worked for some well known companies as project budget manager. We have a clear timeline for the meetings. All of these meetings will be participated according to the responsibility of the partners. Sanliurfa Teknokent staff is also very experienced in the project budget management. Dr. Hakan Gülerce will work in collaboration with the financial department staff of the Sanliurfa Teknokent.

Call 2019 Round 1 KA2 - Cooperation for innovation and the exchange of good practices
KA205 - Strategic Partnerships for youth
FormId KA205-8DD575B6 Deadline (Brussels Time) 12 Feb 2019 12:00:00

How will the progress, quality and achievement of project activities be monitored? Please describe the qualitative and quantitative indicators you will use. Please give information about the involved staff, as well as the timing and frequency of the monitoring activities.

Our project is expected to produce increased quality in the preparation, implementation, management and all other sections of the project. To have a good and hight quality outcomes from the project the progress should be managed in a high quality way.

There will be a special team to monitor the progress, quality and achievement of the project activities. The team members who have experience in monitoring and managing projects will be selected for this very important work. One member from each partner will be selected to monitor the progress, quality and achievement of the project. These representatives for control will meet online or if we are having transnational meetings, they will meet specially and discuss about the progress, quality and achievement of the project.

Every three months we will have surveys for testing the quality and progress of the project. Also during the trainings, mentors and social entrepreneur candidates will fill the survey forms.

Also the monitoring team will make first test and last test to see the change and progress in the project.

After and before every project meeting, the monitoring team will work and make a report to develop a road map and discuss it in the project meeting.

Additionally, In the trainings we will also use and benefit from the SALTO Resource Centers to help improve the quality and impact of the project. The module also will be shown to Harran University and Messina University related departments to check the quality.

Lastly, at the beginning, at the kick-off meeting to have a quality framework will be agreed on by all the partners to ensure a high level quality for the project, including signing the "quality agreement".

How will you evaluate to which extent the project reached its results and objectives? What indicators will you use to measure the quality of the project's results?

To evaluate to which extend our project reached its result, we planned to monitor in two steps during the project schedule.

Step 1: Project Timeline Control List (First 15 months of the project)
During the transnational meetings all the steps and timeline of the project will be checked again and get the approval of the partners. Especially for the first step is the developing curriculum for the social entrepreneurship and the trainings of the young refugee people and mentors.

Step 2: Project Performance and Impact Feedback (Last 9 months of the project)
During a transnational meeting there will be a special feedback session for mentor mentee matching and partners will se how the quality of the project's results. These will be shown with the success stories and number of the new social enterprises which came out of this project.

All project staff is experienced and expert of their fields not only the coordinator of the project but partners also. That is one of the important key factor which increases the quality of project. Also their network is really important for dissemination activities. Another importance about the staff of Sanlıurfa Teknokent, all of them are close corporates which some of them already have collaborated in the past.

Call 2019 Round 1 KA2 - Cooperation for innovation and the exchange of good practices
KA205 - Strategic Partnerships for youth
FormId KA205-8DD575B6 Deadline (Brussels Time) 12 Feb 2019 12:00:00

What are your plans for handling risks which could happen during the project (e.g. delays, budget, conflicts, etc.)?

a- In the condition of conflict between partners: One of the most important problems is conflict between partners in transnational projects. Especially the approaches of partners and being negotiable during controversial issues are so important. Generally this kind of situations can be considered as administrative inability and unequal management. We think the best way of preventing conflicts between partners is meetings, making the connection strong and problem solving if there are problems face to face. Because of that we are giving importance for kick-off meeting. Kick-off meeting is also a conversancy event for partners. So the protocol will be signed at the kick-off meeting which is very important to prevent conflicts.

b- Withdrawal of a partner from the project: These kinds of situations generally occur if there are unexpected cases. The mandate helps to minimize and regularize the partnership relations. In this condition National Agency of Turkey will immediately informed and will be asked for advise.

c- Delaying in working plan of the project: Sanlıurfa Teknokent is responsible as the coordinator for pursuing project plan management. If the problems are causing because of the partners, in that case partner means that partner is no obeying the project work plan and partnership mandate. On that case Sanlıurfa Teknokent should inform the EU project management department to solve this kind of problems. In this condition Turkish National Agency will also be informed and their advice will be considered.

Call 2019 Round 1 KA2 - Cooperation for innovation and the exchange of good practices
KA205 - Strategic Partnerships for youth
FormId KA205-8DD575B6 Deadline (Brussels Time) 12 Feb 2019 12:00:00

Implementation

Please explain how will the project activities lead to the achievement of the project objectives and delivery of the planned results?

The aim of the project is to empower the refugee youth with fewer opportunities thorough social entrepreneurship. For this aim the objectives of the project are:
- To develop a training module and curriculum on social entrepreneurship for refugee youth.
- To develop a training module and curriculum on social entrepreneurship mentorship for refugee youth for mentor candidates.
- To train a pilot group of social entrepreneur candidate refugee young people and social entrepreneur mentor candidates.
- To start a center for mentroship pool as a sustainable output of the project for future use.
- To develop a online web portal for the refugee social entrepreneur candidates and mentor candidates.
- To share the success stories for motivation and encouragement of young people.
- To create awareness of the rights and possibilities for the refugee youth in the business area.
So to achieve all of these objectives we need to do the activities of the project, such as transnational meetings, intellectual outputs, mentorship and trainings.

How will you communicate and cooperate with your partners?

We will communicate with the partners through e-mail and skype. Also the representatives of the project will have a special social media group for immediate and faster communication. But all the rules and regulation and responsibilities will be written and signed. But the communication will be done by using institutional email and all partners will be informed by Carbon Copy in the e-mail. The formal communication method is decided as e-mail. For the cooperation we have already signed mandate, after approval our project at the first meeting we will have another protocol between the partners where the responsibilities of the partners are clearly mentioned.

Have you used or do you plan to use eTwinning, School Education Gateway, EPALE or the Erasmus+ Project Results Platform for preparation, implementation or follow-up of your project? If yes, please describe how.

We have used the Erasmus+ Project Results Platform to see the previously implemented projects and their contents. It helped us to develop new ideas and see the variety of the other project in Erasmus+ KA2 Projects. Additionally, relevant IT support platforms will be used to benefit from the online services for teachers, trainers and practitioners for young people with fewer opportunities.

Output Title O1

Output Title	Social Entreprenourship Training Module for Refugee Youth
Output Type	Course / curriculum – Pilot course / module
Start Date (dd-mm-yyyy)	01-08-2019
End Date (dd-mm-yyyy)	30-11-2019

Output Description (including: elements of innovation, expected impact and transferability potential)

This module will be created for this project by mainly one of our partners. And other partners will support and put their experiences in it. After creating this module we will apply it in the project and will get the initial results. It will also help for mentors for their work with mentees.

Please describe the division of work, the tasks leading to the production of the intellectual output and the applied methodology

Sanliurfa Teknokent will manage the all process of the intellectual output. Berayazılım will be responsible from the website design and social media part of the online part of the course. The course will have two parts, one part online other part face to face. So for this online part all the management and website design and online platform will be designed by Bera Yazılım for this purpose. It will first be open to our first young participant. After the project it will be an open access portal. Ufuk Horizon will help us with the language of the modul. Most of the refugees can speak Trukish language but we will definetly consider the Arabic speaking refugees. So there will be Arabic subtitles in the videos at the module. And also there will be the Arabic/English translation of the handbook. For this NGO Horizon will be responsible.
For the developing and making training materials ready Ege Sistem Bilisim Hizmetleri and INSTITUTE OF ENTREPRENEURSHIP DEVELOPMENT will be responsible.

Please justify why specific grant for management and administrative staff is required for the development of the Intellectual Output in addition to what is already covered by Project Management and implementation grant.

We do not need any grant for the administrative staff for this grand. But we need grant for the manager of the project. Becuase from beginning to end the project will be managed by Sanliurfa Teknokent (Sciencepark) and there should be one person just taking care of this work.

Please specify the staff resources which you need to produce the Intellectual Output.

Output Title O2

Output Title	Academic Report / Article
Output Type	Learning / teaching / training material – Academic / scientific publication
Start Date (dd-mm-yyyy)	01-08-2020
End Date (dd-mm-yyyy)	31-10-2020

Output Description (including: elements of innovation, expected impact and transferability potential)

The academic report and article will be published by the academics from Harran University HÜGÖÇ, Directorate General of Migration Management, and Messina University. This publication will help the dissemination of the project at the academic area and will inspire future project to be added on this project. The article will be published in the Journal Migration Research.

Please describe the division of work, the tasks leading to the production of the intellectual output and the applied methodology

From three partners selected academician will be working on a joint article derived from the project. They will be from the Soical Sciences background and they will look at the issue of social inclusion through social entrepreneurship.

Follow-up

Impact

What is the expected impact on the participants, participating organisations, target groups and other relevant stakeholders?

First of all the most important impact will be on our target group young social entrepreneur candidates and the mentors. The social entrepreneur candidates will have trainings and tools for their empowerment and for their future dreams to come true. Also the mentors will have trainings and they will use their experience and knowledge to mentor the social entrepreneur candidates. The role of mentors will be encourage the young people with fewer opportunities. Also the special website will be built by one of our partners will be open access and many other organizations will be able to benefit from them. The content of the website will also include the success stories of the social entrepreneurs, so that will be inspiration for the other people with fewer opportunities. It will also create awareness among the visitors of the website will be one of the most essential impacts of the project. This project also will help to develop the experience and capacity of the Sanliurfa Sciencepark (Şanlıurfa Teknokent).

- Sanliurfa Sciencepark as the coordinator will serve and coordinate the project. This will help to develop to be a bridge between university and industry. This is the first aim of the Sanliurfa Sciencepark establishment. So the project will help to serve for the aim of the Sciencepark. It will also help to create a very important awareness of the capacity of the Sciencepark and develop the managing capacity of the it. Also there will be sustainable mentorship pool as a part of Sciencepark. So that many young people with fewer opportunities can benefit from it.

- BERANET, the social entrepreneur software company will first time join an Erasmus+ project and will be a good example for other companies. That will add another project to their CVs and they will train themselves to work with transnationally.

-HÜGÖÇ, Directorate of Migration of Turkey and MESSINA University of Italy, jointly work on intelectual part of the project and this will add a great value and impact on the intelectuals working here. They will help to make a good and strong ground for the project management. Since they are experienced of the migrant studies, they will jointly publish both a report and scientific work.

- HORIZON is the non government organization, which works for the refugees for their employments and needs. The project will have a great impact on the organization to help and reach out the refugees as their main work.

- Egesys from Turkey and Institute of Entrepreneurship Development from Greece will add experience to their companies / organizations more experience to deal with the training of the refugee youth in English, Turkish and Arabic language. So in the future projects these open access trainings may be used.

- As more indirect effect, project will effect the economy of the Turkey and will help social inclusion and integration of the refugees through social entrepreneurship.

Call 2019 Round 1 KA2 - Cooperation for innovation and the exchange of good practices
KA205 - Strategic Partnerships for youth
FormId KA205-8DD575B6 Deadline (Brussels Time) 12 Feb 2019 12:00:00

What is the desired impact of the project at the local, regional, national, European and/or international levels?

Since Turkey and European countries having the refugee crisis, and the problem of the socio economic integration of the migrant refugee youth this project will create a very important impact the local, regional, national and European levels. With the three language website it will also indirectly effect the all people in the world to use the tools according to their needs. The project will help youth with fewer opportunities to develop their skills and strengthen their encouragements for social entrepreneurship through coaching and mentoring. This will help the social inclusion at the local and regional level. The project will also be a good model for social entrepreneurship will also reduce the unemployment level at the local and national level.

European Level, in the project we will have international partners such us Italy and Greece. There will be governmental and non governmental organizations. The open access website, the training modules (mentor, mentee) and the intellectual outputs of the project will be produced in English, Arabic and Turkish Language. The partners will work for disseminate the outputs of the projects in their websites for the people of Europe. This will serve the European Union values, whereas one of the most important value of Europe which is social inclusion and social entrepreneurship.

40 young refugees will have the sense of sharing their experiences they had during the project implementation, they will have the opportunity to share it with their peers in the close future. They will have chance to share their success stories with them. The same opportunity will be available for the mentor. Mentors will be volunteers in general and they will share their mentorship experience not only withing the project but also out of the project. They will use their skills as volunteers in their lifetime. Also there will be mentors and mentees booklets will be distributed to the mentors and mentees so they will be able to use them as tools.

How will you measure the previously mentioned impacts?

The project will contribute to improved social, environmental and economic outcomes through three main approaches:

- Improvement of individual human social capital and youth earning capacity by building social entrepreneurial mentality and culture and gaining practical experience;
- Effectiveness of the organizations involved in improving targeting and measures in the field of knowledge and expertise.
- Training of the refugee youth social entrepreneurs
- Training the mentors for social entrepreneurs

The measurement will be one of the priorities of the project. We will make first and last tests surveys. All partners will be involved in measuring the previously mentioned impacts of the project. Also all the social entrepreneurship candidates and mentor candidates will be asked to write 2 pages essays to see the change before and after their training.

Dissemination and Use of Project's Results

Call 2019 Round 1 KA2 - Cooperation for innovation and the exchange of good practices
KA205 - Strategic Partnerships for youth
FormId KA205-8DD575B6 Deadline (Brussels Time) 12 Feb 2019 12:00:00

You are requested to make plans for the dissemination of your project results. Please provide answers to the questions below.

What will be the target groups of your dissemination activities inside and outside your partnership?

Please define in particular your target audience(s) at local/regional/national/EU level and motivate your choice.

The primary target group of our project is young Syrian refugees living in the city of Sanliurfa. There will be special emphasis on the young people with fewer opportunities, especially social and economic level. Also the project will bring together the youth social entrepreneur candidates, mentors who will guide them, academics, private sector representatives, policy makers and civil society organizations. These groups will support the project in every level and help to disseminate the project's results. Dissemination of the activities will be from the start to end of the project.

Which activities will you carry out in order to share the results of your project beyond your partnership?

- Kick-off Meeting and Press release at the beginning of the project. This press release will be in three languages, Turkish, English and Arabic to be published on the websites of all partners and local / regional media.
- Use of Social Media: There will be special twitter, instagram accounts and a facebook group for the project.
- Website: Project will have its own website to be published for the youth and mentors.
- Closing meeting: Local and National media will be invited and the project results will be announced.
- Report of the Project: The project report will be sent to the decision makers and several organizations for their use and awareness.
- Brochures and other dissemination materials such as magazines and news will be published during the lifetime of the project.

Call 2019 Round 1 KA2 - Cooperation for innovation and the exchange of good practices
KA205 - Strategic Partnerships for youth
FormId KA205-8DD575B6 Deadline (Brussels Time) 12 Feb 2019 12:00:00

Who will be responsible for the dissemination activities within your partnership and which specific expertise do they have in this area? What resources will you make available to allow for the proper implementation of your dissemination plans?

Dissemination and exploitation of the activities and the results of the project are crucial areas of the Erasmus+ project lifecycle. They give partner organizations the opportunity to communicate and share the outcomes of the project. This extends the impact of the project, improves the sustainability and justifies the European added value of Erasmus+. So, for all the dissemination activities will be coordinated by Sanliurfa Teknokent in collaboration with our partner Beranet who are responsible for the digital media of the project.

Our partner, Beranet, has been working in the field of software and web design since 2006, including computer engineers, programmers and designers; is a company with high skills, creative, dynamic and following technology. The company is known with its expertise on social media and digital public relations. They will be responsible of the project management, implementation software as well as dissemination of the project. However, in order to succesfully disseminate and exploit the project results, all partners of the project will have responsibility for the dissemination of the acitivities and the results of the project.

HÜGÖÇ of Harran University and MESSİNA University of Italy, will support the dissemination of the project together with producing materials. These two partners will be responsible for:

1) To make presentations on the basis of theory, method and applications areas related to the aims of the Project.

2) Conducting preparatory studies for an internationally qualified articles to introduce and dissemianate the project results.

3) To publish reports on specific topics, regions, countries or periods.

4) Publication of bulletins.

5) Creation of a comprehensive archive.

6) Updating the websites

7) Publishing the press releases.

Erasmus+ has an open access requirement for all materials developed through its projects. If your project is producing intellectual outputs/tangible deliverables, please describe how you intend to ensure free access for the public to a digital form of this material. If you intend to put any limitation on the use of the open licence, please specify the reasons, extent and nature of this limitation.

Erasmus+ promotes the open access of project outputs to support learning, teaching, training and youth work. This is parallel with the aim of our project. So, all of the intellectual outputs of this project will be open access on the website of the project. The booklets, reports and tools produced by this project will be open access in the website and will be free to use for all people. All of the materials will be easily accessible and retrievable without any cost or limitations. The resources of the project will be uploaded to our project website (a suitable and openly accessible platform) in an editable digital form. Additionally, the open licence will allow the public to use, reuse, and take the opportunity to share the resource. Also the website which will be designed and programmed by Bera Yazılım will be an open access and a resource for the coming projects of other institutions. All the graphic design and the digital publishing will be done by Bera Yazılım with the coordination of the Sciencepak of Sanliurfa.

Call 2019 Round 1 KA2 - Cooperation for innovation and the exchange of good practices
KA205 - Strategic Partnerships for youth
FormId KA205-8DD575B6 Deadline (Brussels Time) 12 Feb 2019 12:00:00

How will you ensure that the project's results will remain available and will be used by others?

With the project, we aim to reach a sustainable output which is the mentor pool for the social entrepreneur candidates. The results will be for the use of especially for young people with fewer opportunities. The mentor pool will be under the coordinator, Sanliurfa Teknokent (Sciencepark), as a platform. Other institutions or individuals can also benefit from the mentor pool of the project which will remain after the project.
The outputs and the results of the project will be published in the online platform as open access. This will be free of cost or other restrictions. After the project and with the dissemination of the project, it is supposed that many other young people and also municipalities, universities and NGOs will be interested in using the module that created in this project. They can use all the information on the website as well as they can consult to the Sanliurfa Teknokent for further assistance.

If relevant, please provide any other information you consider appropriate to give a full understanding of your dissemination plan and its expected impact (e.g. how you have identified which results are most relevant to disseminate; how you will ensure the involvement of all partners; how you see synergies with other stakeholders, etc.)

A full dissemination plan will be prepared by Sanliurfa Teknokent (Sciencepark) at the start of the project with implementation plan (dates, responsibilities
of each partner). Partners of the project have agreed to be involved in disseminating all intellectual outputs of the project through their networks at local, national, EU and international levels. This will be especially on the partners websites and social media accounts. The partner organizations are major organizations working on refugees or social entrepreneurship in their countries. They have experience and their networks are relevant to the audience for dissemination. The partners of the projects have also close contacts with key stakeholders in the existing ecosystem. Through the project implementation, the motivation with other stakeholders will be created. Because the project needs their involvement from the beginning to the end of the project.

Sustainability

What are the activities and results that will be maintained after the end of the EU funding, and how will you ensure the resources needed to sustain them?

The partners from Turkey, Greece and Italy will gain a tremendous experience because of their relation with the refugees after the Syrian crisis. They will first increase their capacity and outreach during the project implementation. This is very important because they will have a great motivation for the future projects and collaborations. At the end of the project, Greece, Italy and Turkey will be having a modul and toolkit for young refugee social entrepreneurs and social entrepreneur candidates. The project web portal will continue and be improved by time for them by Sanliurfa SciencePark. Program/Training developers in Turkey, Italy and Greece will promote the web portal to be a
dissemination platform of all social entrepreneurs candidates in three language, English, Arabic and Turkish. The content management of the portal will be
done by Sanliurfa Sciencepark and Horizon NGO. Hosting and maintaining the web portal will be done by Beranet Software company in Turkey. All visual and written materials will be available at the online portal for all social entrepreneur candidates. New materials on the project content will be produced by project partners. The produced contents will be put to the online portal.

Checklist

Before submitting your application form to the National Agency, please make sure that:

☑ It fulfils the eligibility criteria listed in the Programme Guide.

☑ All relevant fields in the application form have been completed.

☑ You have chosen the correct National Agency of the country in which your organisation is established. Currently selected NA is: TR01 THE CENTRE FOR EUROPEAN UNION EDUCATION AND YOUTH PROGRAMMES (TURKISH NATIONAL AGENCY)

Please also keep in mind the following:

Mandates of each partner to the applicant, signed by both parties, should be submitted as an annex to the application form. If the application is approved for funding, signed mandates will be considered as a condition for signature of the grant agreement.

The documents proving the legal status of the applicant must be uploaded in the participants' portal (for more details, see Part C of the Programme Guide - 'Information for applicants').

The grant exceeds 60 000 EUR. If the applicant organisation is not a public body or an international organisation, please do not forget to upload the necessary documents to give proof of your financial capacity in the Participant Portal (for more details, see the section 'Selection Criteria' in Part C of the Programme Guide).

Data Protection Notice

PROTECTION OF PERSONAL DATA

The application form will be processed electronically. All personal data (such as names, addresses, CVs, etc.) will be processed pursuant to Regulation (EC) No 45/2001 on the protection of individuals with regard to the processing of personal data by the EU institutions and bodies and on the free movement of such data. Any personal data requested will only be used for the intended purpose, i.e. the processing of your application in accordance with the specifications of the call for proposals, the management of the administrative and financial aspects of the project if eligible and the dissemination of results through appropriate Erasmus+ IT tools. For the latter, as regards the details of the projects' contact persons, an unambiguous consent will be requested.

For the full description of the collected personal data, the purpose of the collection and the description of the processing, please refer to the Specific Privacy Statement (see link below) associated with this form. http://ec.europa.eu/programmes/erasmus-plus/documents/epluslink-eforms-privacy_en.htm

☑ I agree with the Specific Privacy Statement on Data Protection
